INTRODUCTION AND OVERVIEW

Major Accomplishments and Overview

The College of Nursing is dedicated to developing leaders in nursing and health care whose actions, discoveries and voices strengthen and transform the health of individuals and communities worldwide. During this academic year, the College faculty have received significant national recognition for their work in addressing the faculty shortage. A great deal of time and energy has been spent on faculty recruitment for key leadership positions within the College. The College continues to plan for the major renovation of the building and has been engaged in programming and planning for renewal of the building infrastructure to better serve students and faculty. The College continues to expand enrollment and accelerate student progression through year-round programming. Our undergraduate enrollment has grown to 303 and our graduate enrollment totals 278.

Our Graduate Program in Nursing is ranked 47th in the country and the Nurse Midwifery Program continues its ranking as 8th in the United States by US News and World Report. Other major accomplishments during the 2007-08 Academic Year include:

1. Enrollment of the first class of students in the new DNP degree program with continued student interest and applications for Fall 08 that exceed expectations.
2. Expanded student learning opportunities for international exchanges and culturally focused experiences in both undergraduate and graduate programs and formalized relationship with the University of Mexico.
3. Completed revisions of Appointment, Review, Promotion and Tenure policies and procedures to comply with new University-wide guidelines.
4. Simulation Center Advisory Committee created and strategic plan developed for future use and transition to the new simulation center model.
5. Phase II of CON fundraising plan initiated with goal of raising \$12.5 million for programmatic and student support.
6. College of Nursing was awarded a Hartford Center of Excellence in Geriatric Nursing Education with five years of foundation funding and a private donor match.
7. Selected as one of the first four Colleges of Nursing in the nation to receive designation and funding as a Veterans Affairs Nursing Academy.
8. Approved Diversity task force recommendations for incorporating best practices in recruiting and retaining to achieve a more diverse faculty, student and staff environment.
9. Established and filled the Robert S. and Beth M. Carter Endowed Chair in Nursing.
10. Received \$5.4 million grant from NIH to investigate effectiveness of Telephone-linked Care in Cancer Symptom Management and are currently ranked 28th in NIH funding.

Major Accomplishments and Overview

- The first cohort of DNP students was matriculated in August 2007. The Executive Director of Clinical Graduate Programs is serving as interim director. Policies and a program manual were developed in consultation with the CON and the Graduate School and approved by the MS-DNP Program and Curriculum Committee. The first cohort of full time students is scheduled to finish in December 2008. AACN and CCNE were notified of the implementation of the DNP at the College and an accreditation visit will be set in the future.
- The College of Nursing was one of three University of Utah schools who participated in the Graduate Center at Dixie College. Graduate offerings in Teaching Nursing, Clinical Nurse Leader, Informatics, MS in Gerontology and the rural NP program were marketed. Implementation began with a recruitment campaign. Seven graduate students have begun their studies on the Dixie campus. A number of online offerings are available as well as synchronous courses delivered in the DSC distance delivery classrooms.
- The rural NP program is benefiting from a dedicated program coordinator and enrollment is increasing.
- Pertinent graduate specialties have incorporated gerontology content as per the Hartford Center requirements. The teaching nursing program is trying to facilitate completion of the Gerontology certificate for their students.
- The Gerontology Interdisciplinary Program made significant advances in formalizing a student recruitment program and increasing admissions to the MS program. A new Gerontology Interdisciplinary Program Advisory Committee (GIPAC) has been added to the College structure.
- Three grant applications were submitted to HRSA. Two of these: the Advanced Education Nurse Traineeship Program and the Psychiatric/Mental Health Nursing Graduate Program were funded. Two university interdisciplinary teaching grants were received--Kristen Cloyes and Debra Penny.
- Program offerings have been expanded and include: Teaching Nursing; Rural Outreach Nurse Practitioner, Clinical Nurse Leader, Informatics and the MS in Gerontology as well as the Gerontology certificate.
- The CON in partnership with the Salt Lake City VA Health Care System was successful in competing to become one of the first of four VA Nursing Academies in the country. The award is worth over \$3 million dollars over 5 years. The first year has supported the addition of 7 VA nurses to the CON faculty as well as several College faculty participating in activities at the VA.
- The CON was named a Hartford Center of Excellence in Geriatric Nursing. This program will focus on enhancing geriatric content throughout the curriculum and developing a specialty-based PhD program in gerontology.
- Faculty resources continue to be a major challenge. Our model for utilizing teaching assistants has been expanded. There were 41 Teaching Assistants supporting undergraduate and graduate courses in 07-08.
- We participated in national discussions related to the Baccalaureate Essentials and are prepared to review the curriculum in 08-09.

New Programs

- An accelerated RN-BS program of 3 semesters was piloted. Ten students completed the three semester program however none proceeded directly into graduate education. The additional cost of the accelerated option did not provide the intended benefit therefore it will be discontinued.

- New BS to DNP options planned for Fall 2008 were clarified and program plans designed for these programs, which include NNP, Acute Care NP, Primary Care NP programs (FNP, ANP, PNP, GNP), and joint degrees MHA-DNP and MPH-DNP.
- Discussions about the development of a new subspecialty Acute Care PNP began with partners at Primary Children's Medical Center. A curriculum is being designed and plans underway to develop a program consistent with national accreditation standards. This new program will need to go through University approval process.
- The Gerontology Interdisciplinary Program developed, received Graduate Council Approval, and implemented an alternate program for the Gerontology Certificate for medical students. The intent is to extend this model to DNP students. They also premiered several new offerings: GERON 5280 – International Dimensions of Lifelong Learning taught by Anne Peterson (Spring 2008) (cross-listed with ED PSYCH 5960-070); GERON 5960/6960-001: The Long term Care Continuum taught by Nathan Robison.; and Geron 5960/6960-002: Applications of Positive Psychology for Older Adults taught by Kathy Bell.

New Nursing Courses

Undergraduate:

None

Graduate:

- N6006 Principles of Pharmacotherapy
- N6341 Group Therapy
- N6342 Family Therapy
- N6365 Psychopharmacology I
- N6366 Psychopharmacology II
- N6370 Pathophysiology of Mental Illness
- N6463 Pharmacology for Acute Care NPs
- N6530 Understanding education, health and social services in Mexico (international course)
- N6535 Simulation in Health Care
- N6960 Special Topics: one time offering of Substance Abuse course for Distance Rural NP students
- GERON 5960/6960-002 Interdisciplinary Seminar Series in Aging
- Positive Psychology for Older Adults, International Dimensions of Lifelong Learning (w/ International requirement), and The Continuum of Long term Care

Revised Nursing Courses

Undergraduate:

- Nursing 4400 was revised to include Pharmacology quizzes and a retake of the first semester ATI test to determine retention of information over the 3 previous semesters and areas for student for NCLEX examination.
- Interdisciplinary Team Experience was incorporated into Nursing 4225 and 4400.
- Nursing 4225 removed the Home Health rotation.

- Nursing 3002 removed one lab hour from Nursing 3025.
- The upper division non-nursing elective course for the RN-BS program was changed to allow the elective to be a nursing course, if desired.
- SETE questions were evaluated for the clinical and didactic courses and minor changes were implemented.

Graduate:

- N6007 Revised course description
- N6330 name change to Severe Mental Illnesses
- N6340 Inactivated (see 6341 and 6342)
- N6520 Interdisciplinary course in Women's Health from 2 to 3 credits
- N6772 Quality Improvement in Health care (name change) and from 2 to 3 credits
- N6774 CNL Role Development from 1 to 3 credits
- N6805 Name change to Seminar Practicum in Clinical Informatics

Changes in Requirements:

- N6365 and N6366 will be required for all enrolling students in the Psych Mental Health program
- HGEN 6600 replaced N6250 in the NNP program.
- Residency and practicum courses for DNP programs of study were all revised to reflect increased hours.
- Additional gerontology content added to all pertinent clinical programs as per Hartford Grant

Quality Indicators and Outcome Measures

Figure 1 shows the total student enrollment during Fall semester over the past four years. Enrollment in the College's undergraduate program has steadily increased. Enrollment will increase by an additional 20 students in 2008-09 as we are expanding our cohort sizes from 64 to 72. Graduate education is undergoing a major transformation with a shift from the MS to the DNP for many of our graduate programs. The first cohort of MS to DNP students was 32 and an additional 27 have been admitted for 08-09. We are also planning for increased enrollment in the PhD as we accept our first group of PhD students with a focus in gerontology, as part of the Hartford Center of Excellence in Geriatric Nursing., in January 2009.

In addition the new University of Utah Graduate Center at Dixie State College will increase graduate enrollment in nursing and gerontology. We currently have 7 students who are part of the Dixie partnership.

Enrollment

Figure 1. Student Enrollment 2004-2008 (OBIA)

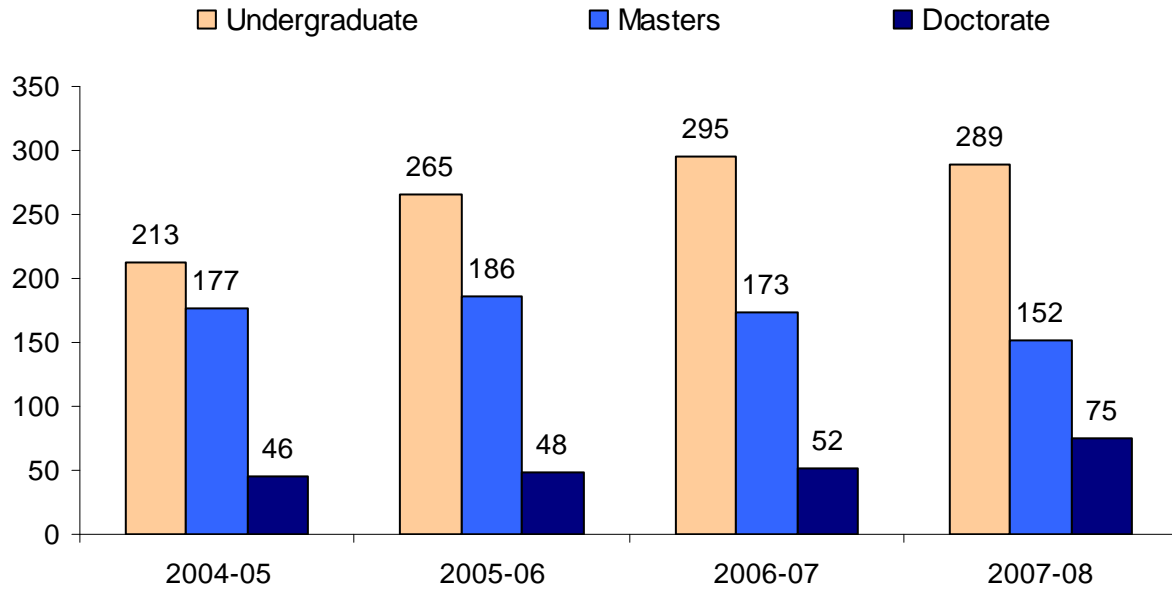

Figure 2 depicts graduation rates for students completing upper division Baccalaureate and RN-BS Programs (undergraduate) and graduate programs (MS & PhD combined). The College continues to see consistently high completion rates across all programs for nursing students.

Figure 2. Number of Graduates 2002 - 2007 (OBIA)

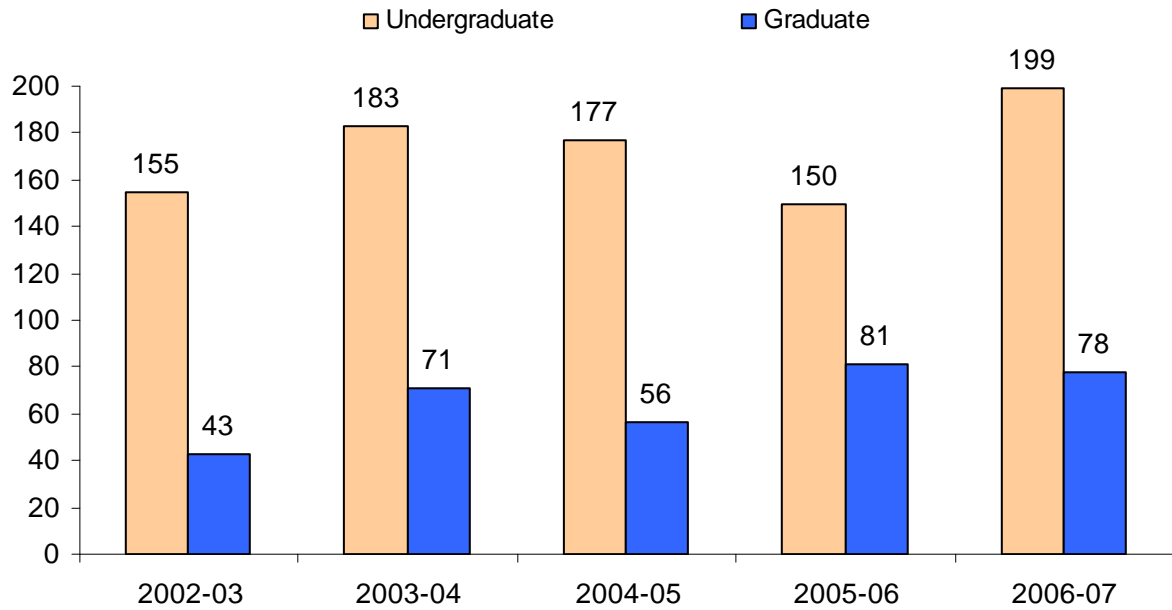

Table 1 summarizes the profile of the College's students for the 2006-07 and 2007-08 academic years:

Table 1. Demographic Characteristics of Students: 2006-07/2007-08

Indicators	BS in Nursing		MS in Nursing		PhD in Nursing		MS in Gerontology		DNP
	2006-07	2007-08	2006-07	2007-08	2006-07	2007-08	2006-07	2007-08	2007-08

RN-BS Entering Fall 07	32	10/49	3.4	74	59	51* (Fall 08)

*Anticipated

**Includes students from prior group of applicants

The applicant pool for the traditional and accelerated programs remains large, allowing the selection of qualified applicants with ability to successful complete the program and pass licensure. We are increasing our enrollment to 72 per cohort starting with Summer 2008.

There were a total of 172 BSN Graduates from Fall 2007 through Summer 2008, the same as in 06-07. The percent who completed on schedule was 98.4% (Accelerated), 98.4% (traditional) and 63.2% RN to BS. Students in the RN-BS group cite life events (health, family issue, relocation) as the most common reasons for non-completion.

Table 3. BS Graduates 2007-2008

Student Category	Fall 2007	Spring 2008	Summer 2008	Total	Projected Fall 08
Traditional BS		66		66	
Accelerated BS			63	63	
RN-BS RN-GNL	43			43	51
Total	43	66	63	172	

NCLEX Pass rates remain high for graduates of the program, surpassing both jurisdictional and national rates. When interviewed at the end of the program, students state they feel prepared to take the NCLEX examination.

Table 4. NCLEX Pass Rates

	Apr – Mar 2003-04	Apr – Mar 2004-05	Apr – Mar 2005-06	Apr - Mar 2006-07	Apr -Mar 2007-08
Number of Graduates Tested	145	116	112	141	130
Number Passing	129	99	102	131	120
CON Passing Rate	89%	85%	91%	93%	92%
Jurisdiction Passing Rate	87%	87%	91%	89%	88%
National Passing Rate	87%	86%	87%	88%	87%

Master's and DNP Program

The master's enrollment in nursing programs in 07-08 decreased slightly from 2006-07; however total enrollment was maintained with the addition of 32 post-Master's DNP students. As of August 1, 2008, there were 36 new MS students, 40 new BS-DNP students, and 27 new MS to DNP students who have been admitted for Fall 2008. Another 16 MS outreach NP students were accepted to start in January for a projected MS and DNP admission total of 119.

In the gerontology Interdisciplinary program for 2007-08, there were 10 Master's Students and 130 certificate students (increased from 111 last year) enrolled. Seventy-five students completed the Gerontology Certificate. Eight new MS students have been admitted for 2008-2009.

Table 5. Master's Enrollment and Graduates by Specialty 2007-08*

Program	Enrollment Fall 2007	Graduates 2007-08
FNP	48	19

The College was successful in maintaining federal funding to support its education programs, student funding and special projects. Table 9 summarizes the active grants and awards in place to support the College's educational mission. In addition, we successfully competed for and achieved two highly competitive awards: the Veteran's Administration Nursing Academy and the Hartford center of Excellence in Geriatric Nursing.

Table 9. Active Funded HRSA & Various Training Awards 2007-08

Funding Period	PI and Title	Funding Agency	Direct Costs	
			Requested	Awarded
07/01/07-06/30/08	Beck: Advanced Education Nursing Traineeships	HRSA BHP, A10HP00083	\$117,643	\$117,643
09/01/07-08/31/12	Beck and Stovall: Veteran's Affair Nursing Academy	Department of Veteran's Affairs	\$3,500,000	\$3,500,000

RESEARCH

Major Accomplishments and Overview

During the 2007-2008 academic year the College of Nursing (CON) continued to progress in strengthening our position as a national leader in nursing research. The overall goal for research is to reach the next level of development of the CON research program, including funded centers of research excellence, predoctoral and postdoctoral training awards, and consistent ranking among the top 20 schools of nursing. The 15% recovered indirect costs and additional research support of \$100,000 provided by the Senior Vice President for Health Sciences has helped to build the infrastructure, provide reward and recognition for scholarly activities, and increase the number of investigators, extramural and intramural research applications, and total funding. A total of \$71,988 was awarded in research recognition and rewards in 2007-8 (Table 10), in addition to \$18,776 in CON research grant funding, from recovered indirects.

We increased from 37th rank in 2005 to 28th rank in 2006 among all public and private schools of nursing in National Institutes of Health funding, and anticipate a further gain when statistics reflecting substantial awards received in 2007 are released (Figure 3). During the fiscal year, the College had 17 extramurally funded studies (Table 11). Additionally, given the declining NIH funding rates, we are continuing to diversify the targets of research application and sources of funding beyond those reflected in this ranking. High levels of intramural and extramural submissions (Table 12) were sustained at 28 total applications (10 intramural and 18 extramural including the multiple components of the program project applications submitted).

Table 10. Reward and Recognition Incentives Awarded Fall 2007

Type of Award	Number of Awards	Amount
Proposal submission incentive	33	\$12,083
Grant award recognition	13	\$ 8,667
Summer Scholarship Institute		
Research track	2	\$13,067
Publication track	15	\$15,000
Returned F&A	54	\$23,171
Total	117	\$71,988

11/01/07-10/31/09	Pepper: Minimizing Harm for ADES By Improving Nurse Physician Communication	VA SLC Health Care System/VA	\$30,900	\$30,900
10/01/06-09/28/08	Staggers: A Clinician-Centered Evaluation of the Usability of AHLTA and Automated Clinical Practice Guidelines and Advanced Technologies	Geneva Foundation/DOD, W81XWH-06-2-0074	\$217,718	\$217,718
* Reflects only extramural grants fiscally administered through the College of Nursing. Awards administered by other campus entities are not tabulated here.				

This report describes major activities for the 2007-2008 academic year related to (1) development of research program and Centers; (2) expanding biologic and biobehavioral research strengths; (3) developing postdoctoral training; and (4) sustaining and enhancing the research infrastructure.

Funding for Research Programs and Centers

Development of a successful research mission involves sustained funding of the research of individual faculty. New extramural funding for the year included two R01s (Mooney, Ellington), one subcontracts to VA HSR&D award (Pepper), and a grant from the Oncology Nursing Society (Beck); as well as funding of CON faculty as co-investigators on awards to the Department of Pediatrics (Smith; R21) and College of Health (Pepper and Wong; R01). Continuing NIH funding included two R01s (Caserta, Dudley), three R21s (Beck, Murphy, Pearce), one R43 (Doig), and three R01 subcontracts to other universities (Beck;

Ellington; Ellington). Other funding sources include the Department of Defense (Staggers), American Cancer Society (Ellington), and Utah State Department of Health (Hardin).

Beyond the research of individual faculty, however, the next step in maturation of a research mission is the development of programs of research involving multiple faculty toward synergistic research and funded Centers. This has been a focus of research development in CON this year. This included the initiation of research affinity groups (research interest clusters) with research leaders in qualitative research (Morse and Clark); gerontology and geriatrics (Lund and Pepper); and child and adolescent (Christian). Additionally, many faculty participate in centers and research interest groups campus-wide. The goals of the affinity groups are to develop pilot studies and other activities with CON and interdisciplinary researchers that could serve as the foundation for related research efforts. While the Hartford Center of Geriatric Nursing Excellence, initially funded this academic year, is a multi-mission center, development of research is integral to the primary mission to prepare faculty to teach geriatric nursing.

The most substantial undertaking in the development of a funded program of research this academic year was the submission in November of an application for a Program Project Grant (P01), responding to a RFA sponsored by the National Institute for Nursing Research (NINR) and cosponsored by the National Cancer Institute. This application required three interrelated R01 projects and a Research Core proposal. Led by Kathi Mooney, this project addressed three of NINR's major funding priorities; care giving, symptom management, and end-of life care. The three projects leveraged the currently funded research of three Principal Investigators, involving seven CON faculty. The three proposals included randomized trials of telephone-linked symptom management skills for spouse caregivers of hospice cancer patients (Mooney; Berry; Beck) and a bereavement intervention to the caregivers after the death of the spouse (Lund; Caserta), as well as a descriptive study of the effects of the interventions on communication with hospice nurses (Ellington; Clayton).

Faculty applied for intramural funds at the University level from the Center on Aging, University Research Committee, University Seed Grants programs, and Instrumentation grants program (Towsley, Clayton, Groot), with Clayton and Groot receiving funding. The CON Research Committee approved 4 studies (Groot, Clark, Sward, Smith) for total awards of \$18,776. Although the funds are managed outside CON, Beck applied for and was awarded funding as a component of the VA Nursing Academy from the VA HSR&D program for an extension of her study on pain management.

**Table 12. Research Grant Applications Submitted and/or Pending Review*
July 1, 2007-June 30, 2008**

Due Date	Project Director & Title	Funding Agency	Direct Costs Requested
08/01/07	Beck: Pain & Nursing Care Quality: Does Certification Make a Difference?	Oncology Nursing Society Foundation	\$53,639
10/09/07	Clayton: Psychophysiological Responses of Breast Cancer Survivors to Follow Up Care	American Cancer Society	\$668,383
08/28/07	Cloyes: Impact of Continuity of Care on Mental Health Status on Juvenile Justice Outcomes: A Longitudinal Study of Predictive Risk and Protective Factors	U.S. Department of Justice	\$737,635
04/01/08	Doig: Nurse Faculty Scholars Program	Robert Wood Johnson Foundation	\$350,000
06/05/08	Doig: Commercialization of an Online Training Course, Phase II	National Institutes of Health	\$102,614

10/28/07	Groot: Task Tracking and Time Management for Students	Microsoft Research	\$76,014
11/21/07	Mooney: Enhancing End of Life and Bereavement Outcomes for Cancer Patients and Caregivers	National Institutes of Health – National Institute of Nursing Research	\$2,109,147
05/20/08	Mooney: Enhancing End of Life and Bereavement Outcomes Among Cancer Caregivers	National Institutes of Health – National Cancer Institute	\$5,165,892
11/06/07	Murphy: Effects of Hormonal Contraceptive Formulation on Compliance, Adverse Events, and Use	National Institutes of Health – National Institute of Child Health and Human Development	\$670,339
01/28/08	Pearce: Maximizing Development – Engaging Vulnerable Adolescents in Interactive Games to Promote Physical Activity, Self-Competence, and Prevent Obesity	Robert Wood Johnson Foundation	\$178,562
11/14/07	Rothwell: Toward a Model of Exercise Motivation for Breast Cancer Patients and Survivors	Susan G. Komen Breast Cancer Foundation	\$223,536
01/03/08	Rothwell: Newborn Blood Screening: Assessing Parental Experiences of False Positive Results	Pfizer, Inc.	\$123,716
04/01/08	Rothwell: Cancer Survivors: Using Recreation Therapy to Increase Physical Activity	American Cancer Society	\$669,515
* Reflects only extramural grants fiscally administered through the College of Nursing. Awards administered by other campus entities are not tabulated here.			

Expanding Biologic and Biobehavioral Research Strengths

While psychosocial and health services research will continue to be important emphases for nurse researchers, the highest ranked colleges of nursing have a substantial portfolio of basic or clinical research with a biologic and biobehavioral focus, and NINR has indicated there will be a growing emphasis on biobehavioral research in their funding priorities. There is a substantial history of biobehavioral research at CON on which to build. Several activities were initiated this year contributing to the goal of balancing the CON research portfolio. Dr. Sandy Smith leveraged her expertise in heart rate variability in infants to partner with faculty from the Department of Pediatrics to receive NIH funding. Dr. Margaret Clayton received a University Research Seed Grant to pilot biological markers in her communication research and Dr. Lee Ellington continues to use physiologic measures in her mentored research in communication. The College of Nursing successfully recruited Dr. George Rodway, who is currently completing a postdoctorate in sleep apnea mentored by a pulmonologist, and has previously included genetic markers in his research. The Associate Dean for Research (Pepper) completed an NIH fellowship at NIH in the Summer of 2007 (Summer Genetics Institute), and has initiated conversation with Dr. Ray Gesteland about developing nursing research in genetics, including opportunity for research partnerships for faculty recruits. Funding for visiting scholars supported Robert McMurray, Ph.D., from the University of North Carolina, Chapel Hill, who presented on the pathophysiology of obesity, which was jointly sponsored by the College of Health.

Developing Postdoctoral Training

Another marker of a mature research mission in a college of nursing is the presence of postdoctoral scholars. The number of inquiries about postdoctoral study to CON has increased markedly this year. Dr. Hyun Sook Kim completed a Visiting Professorship in December, working predominantly with two faculty (Berry, Pepper) on geriatric end-of-life care and care management. One self-funded international visiting postdoctoral scholar began work with Dr. Janice Morse this summer to study qualitative methods and suffering. Dr. Morse's international reputation continues to attract post doctoral scholar inquiries. CON will continue to develop its recruitment and infrastructure to support postdoctoral study. One of the joint initiatives in the CTSA proposal involving CON is the development of interdisciplinary research postdoctorates, so this initiative is consistent with the strategic directions of the health sciences campus.

Besides Dr. Bob McMurray noted above, other visiting scholars included Elizabeth Marias, who holds credentials as a pharmacist and nurse, from the University of Melbourne, Australia, and Dr. Joyce Roberts, CNM from the University of Michigan. There were 13 bimonthly research and evidence-based scholarly practice seminar brown bag held during the academic year, including the inaugural Veterans Administration Nursing academy presentation.

FACULTY PRACTICE / SERVICE

Major Accomplishments and Overview

The College practice plan and practice sites are essential to its education and research missions. In addition, all of the College's practices exist to showcase excellence in advanced practice nursing. All of the College's faculty practices sites provide interdisciplinary practice experiences and educational opportunities. The College has 34 faculty practicing in 11 faculty practice arenas and 24 sites. A summary of the practice activities follows:

Utah Juvenile Justice

The College was awarded a three-year contract to provide healthcare services for the Utah Juvenile Justice System from July 1, 2005 through June 30, 2008, which totaled \$1,953,640. We have negotiated a renewal on this contract for an additional three years from July 1, 2008 – June 30, 2011 with projected funding of \$2,521,200. Medical and nursing services will continue to be provided at the following five sites: Salt Lake Valley Detention Center, Genesis Youth Center, Wasatch Youth Center, Observation and Assessment, and Decker Lake Youth Center. Services are provided by Jennifer Clifton, MS, FNP, Barbara Holstein, MS, FNP and Peggy Jerome MS, Psych APRN. These sites provide educational and clinical opportunities to College students and School of Medicine residents. This site also provides an arena for researching prescribing practices and poly pharmacy in the adolescent population.

Contracted Positions

- Mary Hall, MS, PNP, provides services at the UUHSC Westridge Clinic at 25% time. This is an important pediatric primary care education site for the College's students.
- Julie Steele, MS, FNP, provides services at the South Main Clinic at 80% time. Ms. Steele is contracted to the Department of Pediatrics to assist with the Foster Care Children's Program. It is an important pediatric primary care education site for the College's students. Ms. Steele also participates in interdisciplinary research with Dr. Karen Bucchi.
- Geeta Maharaj, MS, PNP, provides services at the Christmas Box House Clinic at 10% time. Maharaj is contracted to the Department of Pediatrics to assist Julie Steele with the Foster Care Children's Program. This agreement is an important pediatric primary care education site for the College's students. Ms. Maharaj is working on a manual that will assist Christmas Box House personnel who are not trained in health care to identify health care situations that need to be addressed in a timely manner.
- Erin Wright, MS, WHNP, provides services for the Department of Obstetrics and Gynecology in outpatient clinics at 90% time. This is an important woman's health education site for the College's students and provides for excellent collaboration with the Department of OB/GYN. Ms Wright serves participate in the care of clients served by the general division of OB/Gyn.
- Katie Morgan, MS, WHNP, provides services for the Department of Obstetrics and Gynecology in the pelvic pain outpatient clinic at 10% time with Dr. Howard Sharp. This is an important woman's health education site for the College's students and provides for excellent collaboration with the Department of OB/GYN.
- Susan Hall, MS, WHNP, provides services for the Department of Obstetrics and Gynecology in the South Main outpatient clinic at 10% time. This is an important woman's health education site for the College's students and provides for excellent collaboration with the Department of OB/GYN
- Ginger Marshall, MS, APRN, provides services for the Palliative Care Program at University of Utah Hospital 100% time. Marshall is contracted to the Department of Internal Medicine to provide patient care services and assist in growing the Palliative Care Program. This is an education site for the Adult, Critical Care and Family Nurse-Practitioner students. The growth in

the first year for the Palliative Care Services was impressive and in December 2007 an additional 1.0 FTE was added to the service in collaboration with the Department of Internal Medicine.

- Holli Martinez, MS, APRN is the new provider in the Palliative Care Program. Ms. Martinez brings a wealth of experience with her as a Certified Hospice Nurse. This is an education site for the Adult, Critical Care and Family Nurse-Practitioner students.
- Blaine Winters, MS, APRN provides services as an Acute Care Nurse Practitioner for the Trauma Service team at 25%, under the direction of Dr. Steve Morris. Winters is contracted to the Department of Surgery, Trauma Team to provide care and coordination services for inpatient traumas and out patient follow-up. This is an education site for the Adult and Critical Care Nurse-Practitioner students. In addition Mr. Winters is evaluating pain assessment and treatment for geriatric trauma patients with rib fractures.
- Lucy Leaver, MS, FNP, GNP provides care at the Veterans Hospital, Red Clinic at 50% as a faculty exchange program between the Veterans Administration and the CON. This is an important family and geriatric nurse practitioner care education site for the College's students. Ms. Leaver holds one of the VA Nurse Academy positions.

Psych / Mental Health

- Ann Hutton, APRN, PhD, Psychiatric/Mental Health Nursing faculty member, practices 25%, with her office at the College. The practice provides learning experiences for second-year psychiatric nurse practitioner master's students.
- Michael Johnson, MS, APRN, provides care at the Child and Adolescent Behavioral Health Clinic approximately ½ day per week; provides patient evaluations as a research assistant to Dr. McMahan and also provides services at the Center for Medical Technology in MEG analysis.

Caring Connections

Kathy Supiano, MS, LCSW, directs Caring Connections: A Hope and Comfort in Grief Program was established in 1997 and is a joint effort of the College of Nursing and the University of Utah Hospitals and Clinics. Every family of a patient who dies in University Hospital receives a bereavement care call from Caring Connections staff. In each of these 480 calls per year, condolences are offered, guidance is given and referral information is provided as needed. Caring Connections has over 6,000 personal contacts per year, and is a visible and respected service of the College, hospital and university. Caring Connections serves nearly 200 persons in the grief support groups, yearly. Given our enrollment in winter 2008 groups, we may exceed last year's enrollment by as many as 100 participants. Greater than 65% of the participants in the groups are family members or friends of patients who have died in our hospital.

Student Health Center

Four faculty providers practice at the University of Utah Student Health Center. Salary support is provided by transfer of funds from the Vice President for Student Affairs. Direct salary support is provided by the Vice President for Student Affairs for the four nurse practitioner at Student Health.

BirthCare HealthCare (BCHC)

The College Nurse-Midwifery (CNM) and Women's Health Nurse Practitioner (WHNP) faculty continue to provide obstetrical and women's health care services at the Ellis R. Shipp Clinic, Teen Mother and Child Program, Clinic 4 and the Madsen Clinic. During the 07-08 fiscal year we delivered 435 babies at University Hospital. The practice had a primary cesarean section rate of 8.1%, a repeat section rate of 3.5%, forceps rate of 3.3 % and a vaginal birth rate 85.6%. This compares with a nation wide c-section rate of > 30%.

- Teen Mother and Child Program (TMC)
The TMC program moved to the new South Main clinic. The College revised its contract arrangement with the Department of Pediatrics to provide antepartum and intrapartum obstetrical services for TMC patients from a contract to a fee for service model. The new agreement provides for an interdisciplinary model of service where the Department of Pediatrics provides all

pediatric care to the Children of TMC patients and the College provides all antepartum, intrapartum and postpartum care for the TMC population. TMC creates a unique learning environment, giving students the opportunity to work in an interdisciplinary setting.

- Woman and Children's Health Care Consortium
A team from OB/GYN, Pediatrics and the College has been meeting two to four times per month since May 2005. This multidisciplinary consortium is evaluating the integration of services to the underserved from each department. The clinics targeted for integration are South Main for Pediatrics and OB, Ellis R. Shipp (ERS) from the College and Teen Mother and Child Clinics for Pediatrics and the College.
- Ellis R. Shipp Clinic
The contract with the Salt Lake Valley Health Department (SLVHD) to provide women's health services at the Ellis R. Shipp (ERS) Clinic was extended to a three-year renewable agreement. The population the College serves at the ERS clinic provides cultural and ethnic diversity experiences for College students that are not available at other sites. The College was awarded a \$26,400 grant from the Utah State Health Department to assist with the salary of a bilingual receptionist and billing clerk. The funding was effective December 1, 2007 through June 30, 2008.
- Clinic 4 and Madsen Clinic
Clinic 4 and the Madsen Clinic serve an insured and Medicaid population that represents about 30% of the College's outpatient business. MGMA patient satisfaction benchmarking data from Madsen clinics consistently rank BCHC providers in the 90-100% range-indicating an "excellent" rating.

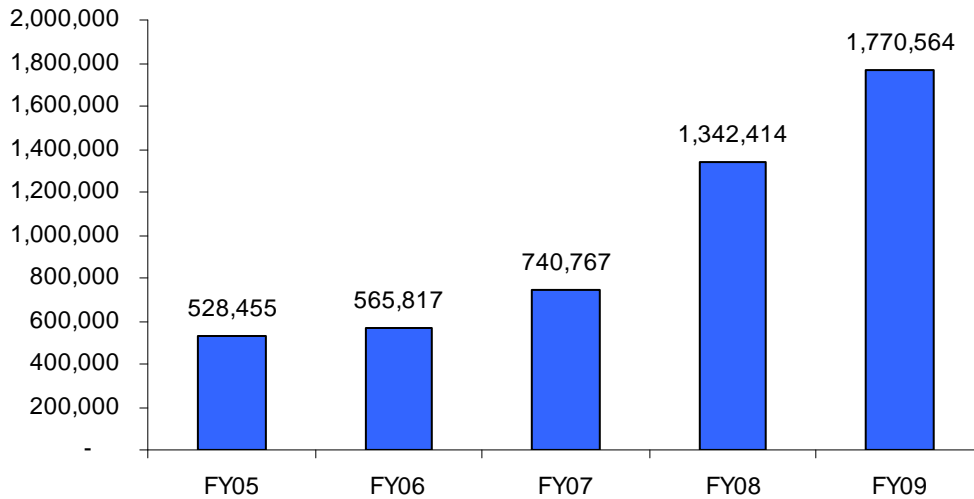

Operational indicators for BCHC indicate charges of \$1,305,078 as of June 30, 2008. This represents a positive variance in charges of \$344,520 and represents a \$140,912 FYTD positive variance for payments. IDX work RVU's also exhibit a positive variance of 3,912 from previous FYTD. Financial statements comparing the previous fiscal year payments to current fiscal year payments mix indicate the payer mix has shifted slightly with BCBS up by 2%, contracts down 8%, self pay down 4% and Medicaid up 10%.

Table 13. Faculty Practice Projected Revenue/FTE

	FTE	Projected Revenue
Palliative Care (Marshall, Martinez)	2.00	\$202,232
OB/Gyn (S. Hall, Morgan, Wright)	1.10	\$124,146
Pediatrics (Steele, Maharaj)	0.90	\$87,276
Gen Surg (Winters)	0.25	\$22,874
Psychiatry (Johnson)	0.80	\$68,640
Student Health (Cutting, Kilgore, Kirby, Martin)	3.30	\$343,589
Westridge Clinic-Peds (M. Hall)	0.25	\$22,181
BCHC Ellis Shipp Clinic	2.35	\$200,282
BCHC Madsen	1.35	\$324,142
BCHC Clinic 4	1.05	\$252,110

BCHC South Main - Teen Mom	1.30	\$111,000
Mental Health NP (Hutton)	0.25	\$26,943
Juvenile Justice Contract (Fuller, Clifton, Holstein, Jerome)	1.25	Reflected in Table 14
Total	16.15	\$2,845,110

Figure 4. Clinical Practice Revenue Growth

Please note: Figure 4 represents the values in Table 13 only. Table 14 values are not reflected in figure 5.

Table 14. Practice Grants & Contracts 2007-08

Funding Period	PI and Title	Funding Agency	Direct Costs	
			Requested	Awarded
12/01/06-11/30/07	Roberts: BirthCare HealthCare at Ellis R. Shipp	Utah Dept. of Health, 071652	\$38,400	\$38,400
12/01/07-06/30/08	Roberts: BirthCare HealthCare at Ellis R. Shipp	Utah Dept. of Health, 081857	\$26,265	\$26,265
07/01/05-06/30/08	Roberts: Juvenile Justice Contracts	Utah Dept. of Human Services, 060317	\$1,953,640	\$2,017,000
07/01/08-06/30/11	Roberts: Juvenile Justice Contracts	Utah Dept. of Human Services, Contract # Pending	\$2,521,200	\$ Pending
7/01/08-06/30/09	Roberts: BirthCare HealthCare at Ellis R. Shipp	Utah Dept. of Health,	\$32,832	\$ Pending
7/01/08-06/30/09	Thomas: Teen Mother and Child at South Main Clinic	Utah Dept. of Health,	\$20,000	\$ Pending

OUTREACH

Major Accomplishments and Overview

The outreach activities of the College of Nursing includes coordination of International, Diversity, and Service-Learning experiences. Additionally, cooperation and collaboration between these three interest areas in the College of Nursing, the Health Sciences, the University Campus and the local/international communities are overseen by this office.

Diversity - Ethnic and disadvantaged students participate in recruitment and support efforts provided by the Office of Outreach. Approximately thirty one percent of the undergraduate class in the College of Nursing is participated in outreach activities. The College of Nursing has continued to be an active participant in the Health Sciences Cultural Competency course training program. All undergraduate and most graduate students in the College are expected to complete modules I - IV of the program. Additionally, faculty of the College of Nursing is receiving training to become CCMR facilitators. College of Nursing students participate in Academic Service-Learning (ASL) also through the support of the Office of Outreach. The College of Nursing is proud to be the only college or department on campus to have fully integrated service-learning throughout the curriculum. Five required nursing courses have been approved by the Bennion Center for recognition as service-learning courses. However during this academic year the History and Policy Course faculty requested that the ASL designation for the course be discontinued for this course. During the 2007 – 08 academic year, approximately 159 students provided a minimum of two hours of service per week in one of fifteen partner community agencies. At least 9,540 hours of service have been provided to our community through Service-Learning projects. In addition to the service our students are providing, College of Nursing faculty volunteer their time and service in numerous health fairs, health education presentations and community outreach activities.

International Exchanges - The international outreach efforts of the College have also been coordinated through the Office of Outreach and include exchanges with Mexico, Korea and Sweden as well as participation in service projects in Mexico, Peru, Thailand and Africa. Numerous requests for international exchanges are being assessed by the Outreach Committee and facilitated as the faculty resources permit. College of Nursing faculty have been assigned as liaisons to six school of medicine programs. The Director of Outreach serves on the School of Medicines oversight and scholarship committees for the international programs coordinated by the School of Medicine. The College of Nursing faculty liaisons will participate in planning the experiences in Peru, Ecuador, Ghana, China, Thailand, and Mexico to insure that the timelines and activities of these international experiences support the College of Nursing faculty and student interests as well as the College of Nursing protocols for international experiences. Two faculty from the National Autonomous University of Mexico (UNAM), College of Nursing, in Mexico City visited the U of U, College of Nursing in May of 2008. Two students from UNAM are spending summer semester at the University of Utah College of Nursing participating in three undergraduate courses. The Director of Outreach visited UNAM in January, 2008 to plan for expanded exchange opportunities such as this. YouthLinc, a nonprofit organization, provides annual local and international service-learning opportunities for nursing students. Through our affiliation with YouthLinc, four College of Nursing Students participated in the youth international service programs at a school for deaf children at a small local hospital in Kenya; an international service program in Mexico at a school for disabled children; the Yanamono clinic, in Peru; and a new project in Thailand that supports disaster victims.

Service Learning - A new College of Nursing Academic Service-Learning Recognition Program was developed for implementation in 2007 – 08. The entering classes of summer, 2007, were the first participants in this newly developed recognition program. The college's five service-learning courses have cooperated to design an integrated program wherein students are able to select a community agency to work with throughout the four semesters they choose to participate in service-learning. This longitudinal opportunity provides students with more in depth experience with the community partner and also enhances the student's ability to contribute to meeting a community agency's mission. The ASL faculty has also worked with the Director of Outreach to identify primary and secondary community agencies partners. Faculty liaisons were identified to work with primary partner agencies to coordinate

the four semester experience and to improve continuity for both the student and the community agency. The success of the new ASL Recognition program has resulted in the majority of students opting for the ASL experience. Forty-six of sixty students routinely requested the ASL option. The course faculty have been stressed with these demands. The History and Policy Course has several required designations such as writing and has decided to discontinue the ASL program.

Quality Indicators and Outcome Measures

The College has remained actively involved in the Health Professions Academy and numerous other activities across campus which provides support for the recruitment and retention of ethnically diverse students. College of Nursing faculty consistently mentor students involved in the Presidents Utah Opportunities Scholarship program and continue to collaborate with high school services to coordinate recruitment activities. Our focus on support for ethnically diverse students as well as students who have an educational or economical disadvantage has resulted in recruiting and retaining approximately thirty one percent of our undergraduate student population. This outcome data was collected by staff reviewing the student records of undergraduate students enrolled in the College of Nursing during 2007 – 08. Additionally all students in the College of Nursing, with the exception of Oncology Outreach PhD students, have completed all four of the CCMR modules. The program became a formal course that is required of all Health Sciences students in 2007. Additionally diverse students who have been recruited and retained in the College of Nursing have become active leaders in the Diversity Interaction Group, the College of Nursing SAC, USNA, and NSNA.

The exchange program developed between the College of Nursing of the Autonomous University of Mexico City was continued during the 2007 – 08 academic year with the visit of two faculty and two nursing students from Mexico City. Both the past President of Mexico, President Fox, and the current Mexican consulate have identified the University of Utah, College of Nursing as a role model for nursing schools in Mexico. Evidence of quality in the College of Nursing Outreach activities and the reputation of the University of Utah, College of Nursing is indicated through the numerous inquiries from international programs and individuals who request to study the University of Utah, College of Nursing methodologies for preparing undergraduate and graduate nursing students. The Director of Outreach negotiated housing in University of Utah student housing for two Swedish exchange students during autumn semester. These arrangements improved the quality of these students' experiences. Funding was also received during 2007 and 2008 to expand the Universities College of Nursing Mexico City exchange program. The Director of Outreach received funding from the Michael Foundation, the International Center and the ERDC to continue and expand the College of Nursing/Mexico City Exchange Program

The new College of Nursing Academic Service-Learning Recognition Program which was developed by the Director of Outreach in spring semester, 2007, and presented to the entering students in the summer of 2007, has shown evidence of being a success. Sixty of the sixty four entering students chose to participate in academic Service-Learning during their first semester. On average 44 of 60 students have chosen the ASL option in all four semesters. However, only twelve of the original recognition program students have completed all the requirements to receive recognition. The Office of Outreach has worked to integrate the Academic Service-Learning task force recommendations into the Outreach programs. The task force recommended that students not be required to take service-learning, but always have the option to choose to serve. The Academic Service-Learning program has continued to be successful and will most likely continue to attract even more students with the new College of Nursing ASL recognition program. As evidence of the quality of the Academic Service-Learning program, six College of Nursing students were actively enrolled in the Bennion Center's Scholar Program in 2007. This number exceeded any other college or department on the university campus.

Major Accomplishments and Overview

The College of Nursing Development Office continues to promote the visibility of the College and its mission within the University of Utah Health Sciences Campus, the University at large, the community, alumni and potential donors. The office continues to identify potential donors to increase the private funding of programs and projects as determined in coordination with the Dean's Office and list of priorities within the College of Nursing.

While the focus of the Development Office is to provide general support to the College of Nursing programs, the main focus of the Development Office over the next 5 years will continue to be the campaign—*Building for the Future of Nursing Education* which includes renovation of the College of Nursing building, creation of the Intermountain Simulation Center, and a concerted effort to increase funding for scholarships, fellowships, endowed chairs and support for all programs. The CON Development Office works directly with the University Central Development Office and the Health Sciences Office on campaign strategy and prospect management.

Alumni Association Board

The Alumni Association Board meets monthly between August and May except for the month of December. This past year they met on the first Tuesday of the month. The mission of the Board is the following:

1. To establish and foster interrelationships among the community, alumni, students, faculty and administration of the College of Nursing.
2. To build a communication network among College of Nursing alumni.
3. To provide monetary assistance to students through scholarships.

Members for the 2007-2008 AY were:

Allyson Dang, President
 Gretchen Ratzlaff, Past President
 Ben Becker
 Charles Kaiser
 Deena Lofgren
 Brenda Luther
 Kevin Martin

Stacie Pearce
 Vicki Plumb
 Matti Smith
 Chris Stratford
 Joni Walker
 Melanie Wolcott-Klein
 Monique Way

Faculty Representatives:

Alexa Doig
 Shahnaz Moezzi

Student Representatives:

Luke Hemphill
 Jesse Vincent

Specific Activities and Major Accomplishments:

Fourteenth Annual Honors for Nursing Recognition and Reception—

- Over 600 nurses and those who support the nursing profession were honored by their peers, family and friends this year. College of Nursing graduate and undergraduate program preceptors for this academic year were honored and invited to the recognition dinner to thank them for the time and expertise they provide to our students.
- Sponsors and Contributors for this years event included:
 - a. Gold (\$5,000) - Iasis Healthcare and MountainStar Healthcare
 - b. Silver (\$2,500) - Johnson & Johnson

- c. Bronze (\$1,500) - AstraZeneca, EnergySolutions, Intermountain Healthcare, Mountain Medical Imaging Center; KSL and TLC Impressions, Inc. were in kind sponsors at the bronze level.
- d. Contributors - Carr Printing Company and Temple Square Hospitality.
- Senator Karen Hale was the emcee for the recognition dinner.
- The 7th Dare to Care Award recipient was Pamela Atkinson.
- 14 hospital units were recognitions.
- Cash proceeds from the event were added to the Alumni Scholarship Fund.

Career Fairs - Two Career Fairs were held this past academic year. The first one was held during Fall Semester on Thursday, October 25, 2007; the second one was during Spring Semester on Thursday, February 21, 2008. After surveying the vendors at the Fall Career Fair and receiving recommendation from a number of faculty, the Alumni Board voted to move the Career Fair from Fall Semester to Spring Semester. To avoid an 18 months gap between career fairs the decision was made to hold an additional one in the same academic year. The Health Sciences Education Building was once again the venue. Seventeen (17) agencies registered and participated in the Fall and sixteen (16) agencies registered and participated in the Spring. Program areas from the College of Nursing also participated both times and Salt Lake Community College nursing students were invited to attend.

Phonathon —

- The *excellence* Newsletter was sent out in February to all alumni paving the way for the phonathon in March. A College of Nursing Alumni Association membership drive was launched in this issue. A form and return envelope were enclosed giving alumni the opportunity to respond. Alumni News was the focus of this issue.
- 2008 was a record year for dollars pledged. There were 163 new first time alumni donors this year. Members of the Alumni Board wrote personal handwritten notes to each of these new donors. Follow-up events are being planned to thank all donors of \$100 or more and thank you letters were sent to all remaining phonathon donors.
- The total number of dollars pledged was \$20,002.

Decades of Caring –

- On September 28, 2007, *Decades of Caring* was held in conjunction with the University of Utah's Homecoming events and honored graduates of the college from the years of '47, '57, '67, '77, '87 and '97.
- Alumni gathered in the new Health Science Education Building across from the College of Nursing for dinner and reuniting while sharing pictures and stories from the past. Over 45 alumni from all parts of the United States met past classmates which made for a n unforgettable evening.
- Dr. Sue Huether returned to the college for the evening to moderate the program and share her memories over three of the decades being honored.
- Each class also donated a class gift to the college totaling \$790 to be used to support the scholarship awards to the current cohort of nursing students.

Development Board

The Development Board meets monthly between August and June (retreat) except for the month of December. This past year they met on the second Wednesday of the month. The general purposes of the College of Nursing Development Board and its members are as follows:

1. To convey a better understanding of the needs of the College of Nursing to the public.
2. To advise administration and development staff regarding fund-raising.
3. To develop and encourage philanthropic giving to support the College of Nursing.

Members for the 2007-2008 AY were:

Ann Betz
Karie Bird
Linda Blonsley
Alicia Bremer
David Clark
Jane Coats
Teresa Curtis
Tim Dee
Michael Dunn
Nancy Giles
Joan Jacobson

Lynne Kerr, Vice Chair
Patricia Kipp
Georgianna Knudson
Ryan Marsh, HSC Rep.
Norma Matheson
Joanne McGillis
Bonnie Newman
Chase Peterson
Barbara Polich, Chair
Lesli Rice
Alene Russon

Specific Activities and Major Accomplishments:

The goal for the campaign—*Building for the Future of Nursing Education* was segmented into two phases. Phase I focused on raising of funds for the renovation of the building and the creation of the Simulation Center, and Phase II is directed toward raising funds for scholarships and programs in the College of Nursing. The campaign began in July 2005 and will continue until June 2013 in conjunction with the overall University campaign—*Together, we reach*.

In 2006, the board met their goal by raising \$9 million in private funds, approaching the state legislature for matching funds, and receiving those funds from the state to renovate the College of Nursing building. With this success, the board agreed to increase the overall campaign goal from \$20 million to \$25 million of private funds. The board was divided into three Project Teams focusing on three areas of need: Preparing Faculty: Addressing the Faculty Shortage, Increasing Access to Nursing Education, Reaching out to the Community and Beyond. Each Project Team decided on two programs in their area to become familiar with so they could be informed and could identify donors who might be interested in those particular programs.

A Communications Task Force was also established to plan, design and carry out various campaign materials. Michael Dunn of Dunn Communications was hired to produce a 6-8 minute video portraying the need for nurses, the severe nursing shortage, and what the College is doing to alleviate the shortage. Alicia Bremer of Bremer Public Relations is putting together a press kit for the media with all the facts and figures to present stories they may want to produce. Dee Brewer, Executive Director of Health Sciences Marketing and Communications, is working directly with Michael Dunn and Alicia Bremer to design a campaign brochure that can be sent to alumni and donors or given out to community groups.

Public Relations

The annual magazine was published during Spring semester 2008. The *excellence* Newsletter was published three times this past year. In each issue of the Health Sciences Report College of Nursing faculty research is highlighted. Several news releases were picked up by local and national media that included the New Nursing Academy, the U of U Hartford Center for Geriatric Nursing Excellence and the NIH/Fogarty International Clinical Research Scholars Program recipient College of Nursing doctoral student, Sarah J. Iribarren. The Deseret News also carried an article on the Doctor of Nursing program.

Major gifts

1. Gifts totaling \$4,851,848 were received by the College of Nursing from July 1, 2007 to June 30, 2008.
2. Upon the death of Bob Rice in 2007, the College of Nursing received his planned gift of \$1,250,000 to establish the Robert L. and Joyce T. Rice Presidential Endowed Chair in Health Aging. The search for a chair holder will be launched in August 2008.
3. A planned gift of \$1,000,000 to establish the Robert S. and Beth M. Carter Endowed Chair came to fruition and Susan L. Beck has been chosen as the chair holder of this new chair.

4. The Emma Eccles Jones Foundation has pledged \$1,000,000 to go toward the building renovation and completion of the fifth floor—the Emma Eccles Jones Research Center.
5. The Ray and Tye Noorda Foundation gave \$500,000 to match the gift given by the Hartford Foundation for the Hartford Center for Geriatric Nursing Excellence. This funding will establish the Ray and Tye Noorda Geriatric Nursing Scholars.
6. The Very Reverend Fredrick Q. Lawson gave \$200,000 to fund 6 faculty fellowships for the upcoming year.
7. George S. and Dolores Doré Eccles Foundation are close to fulfilling their pledge of \$375,000 to the Nursing Faculty Fellows Program.
8. A planned gift of \$315,500 came to fruition upon the death of Donal B. Hutchison to establish nursing scholarships.
9. A planned gift of \$70,000 went toward the Helen Howe Bamberger Colby Scholarship for Nursing Students Studying Gerontological Nursing.
10. Edith Fairclough added \$27,500 to the Edith P. & Fred W. Fairclough Legacy Endowed Scholarship.
11. Ms. Dale Anne Meagher added \$40,000 to the Unitah Basin Scholarship Fund for baccalaureate or graduate scholarships.
12. The C. Scott and Dorothy E. Watkins Foundation gave \$40,000--\$20,000 to the C. Scott and Berniel T. Watkins Legacy Scholarship in the College of Nursing and \$20,000 to support travel to a conference for the Distance Education Oncology Students and Faculty.
13. Two new scholarships were established: The Norman C. and Barbara L. Tanner Endowed Scholarship (\$25,000), and the Suzan Young Scholarship Fund (\$11,000).

FACULTY AND STAFF

Faculty: Recruitment and Retention

As the national shortage of nursing faculty worsens, faculty recruitment and retention continues to be a high priority for the College of Nursing. In addition faculty retirements are expected to continue and increase in the next few years. Four tenure track faculty members retired during this academic year: Professor Beth Cole, Professor Mae Kramer, Associate Professor Rebecca Wassem and Associate Professor Carole Gassert. All were approved for Emeritus faculty appointments.

Dr. Lauren Clark PhD, RN, FAAN, was appointed with tenure and three new PhD graduates, Dr. Kathy Sward, Dr. Gail Towsley and Dr. Linda Edelman joined the CON faculty. Our goal is to provide an environment where these new and experienced investigators can achieve maximal productivity and to select faculty who will compliment affinity group development.

In total, twenty-one (21) new faculty were welcomed to the College in the past year: four (4) on the tenure track and seventeen (17) on the clinical track. The new faculty were appointed to replace departing faculty and respond to the ever-growing demand for clinical faculty as enrollment increases.

College Administrative Organization

Administrative recruitment for leadership positions within the College was our greatest challenge during this past academic year. We were successful in making the following administrative appointments which will become effective in 2008-09: Chair, Division of Acute and Chronic Care Dr. Stephanie Richardson and Associate Dean for Academic Programs Dr. Julie Johnson. During the coming year we will be searching for a Director of Statistical Services and Program Director for the MS to DNP track.

The following table provides a snapshot summary of College faculty at year-end, from 2003 to 2008.

Table 15. College of Nursing Faculty Profile*

College of Nursing Faculty Profile					
Number of Faculty 2003-2008					
	2003-04	2004-05	2005-06	2006-07	2007-08
Tenure Track (T/TT)	29	29	27	28	31(16/15)
Full Time Clinical & Research Tracks	33	38	42	48	60
Part Time Clinical & Research	21	27	24	28	25**
TOTAL	83	95	93	104	116

* As of June 30, 2008

**Does not include VANA or VAMC

†100 % of tenure track and 23% of full-time clinical faculty are doctorally prepared

On the following page 2007-08 faculty personnel actions recommended by the faculty and approved by University administration are listed.

Faculty Personnel Actions During the 2007-08 Academic Year

New Appointments, Tenure Track (4)

Lauren Clark	Professor	HSCBC
Katherine Sward	Assistant Professor	HSCBC
Gail Towsley	Assistant Professor	HSCBC
Linda Edelman	Assistant Professor	HSCBC

New Appointments, Clinical Faculty (17)

Gretchen Alexander	Instructor (Clinical) PT	ACC
Katie Baraki	Instructor (Clinical)	ACC
Melissa Black	Instructor (Clinical)	ACC
Melissa Boll (Barrack)	Instructor (Clinical)	HSCBC
Susanna Cohen	Instructor (Clinical)	HSCBC
Sherri Evershed	Instructor (Clinical)	ACC
Michael Johnson	Instructor (Clinical)	ACC
Lisa Kaloczi	Instructor (Clinical)	HSCBC
Maddie Lassche	Instructor (Clinical)	ACC
Holli Martinez	Instructor (Clinical)	ACC
Cherie Peterson	Instructor (Clinical) PT	ACC
Carolyn Scheese	Instructor (Clinical) PT	ACC
Juanita Takeno	Instructor (Clinical) PT	ACC
Allen Hanberg	Assistant Professor (Clinical)	ACC
Pamela Hardin	Assistant Professor (Clinical)	ACC
Diane Kihara	Assistant Professor (Clinical)	ACC
Katherine Supiano	Assistant Professor (Clinical)	ACC

Resignations, Paid Faculty (5)

Gretchen Alexander	Instructor (Clinical) Clinical Track	ACC
Sean McNeal	Instructor (Clinical) Clinical Track	ACC
Srichand Jasti	Associate Instructor Research Track	ACC
William Dudley	Research Professor	ACC
Kris McLoughlin	Assistant Professor	ACC

Retirements (4)

Beth Cole	Professor Emeritus	ACC
Mae Kramer	Professor Emeritus	ACC
Carole Gassert	Associate Professor Emeritus	HSCBC
Rebecca Wassem	Associate Professor Emeritus	ACC

Promotion and Tenure (3)

Patricia Berry	Associate Professor (Tenured)	ACC
Sandra Smith	Associate Professor (Tenured)	ACC
Claudia Gerard	Assistant Professor (Clinical)	HSCBC

Post-Tenure Reviews (2)

Kathi Mooney	Professor (Retained)	ACC
Ginette Pepper	Professor (Retained)	ACC

DIVISIONS

Division of Acute and Chronic Care

Division Chair: Ann Hutton, Ph.D., APRN – Assistant Professor

The ACC Division is currently comprised of 62 faculty:

Full Time: 42 - Tenured: 9 Tenure Track: 4 Clinical Track: 27 Research: 2

Part Time: 20 - Clinical: 20

Goals:

1. Enhance open and clear communication among faculty, administration, and staff.
2. Enhance CON environment and ACC Division faculty satisfaction through recognition and rewards for faculty accomplishments.
3. Improve faculty learning opportunities by offering brown bag educational seminars.
4. Seek input from faculty regarding policy issues and changes in College of Nursing.
5. Clarify faculty responsibilities.

Major Accomplishments and Actions:

Goal 1 – Communication Among Faculty, Administration, And Staff

ACC Division Meetings – Four Division meetings (09/17/07; 11/19/07; 02/11/08; 04/21/08) were held throughout the academic year to communicate current issues within the Division, CON, ALT, and the University, as well as to provide an opportunity for faculty to discuss issues and concerns. Division minutes submitted as by Division Staff, Susie Christiansen and Lyn Pearce. Two areas of concern: improving staff-faculty-student relationships with the University Hospital and impact of relocation. CON Building Renovation Report – Renovation plans and updates have been provided in Division meetings and at College Council.

Goal 2 – Faculty Satisfaction and Accomplishments

Faculty teaching, research, practice and service accomplishments were shared and highlighted at each ACC Division meeting. Faculty were recognized for their research and scholarship, practice, and service accomplishments throughout the year at Division meetings and at College Council. Connie Madden and Lynn Hollister were selected to go to the AACN Baccalaureate Essentials meetings because of their many contributions to the planning and development of the undergraduate curriculum.

Faculty Orientation – A combined HSCBC and ACC Division faculty orientation session was held for all new faculty in conjunction with the Fall Faculty Retreat on August 14, 2007 (1-4pm). Each faculty received a comprehensive orientation notebook with College of Nursing and University materials. Faculty guidelines and expectations were reviewed and frequently asked questions (FAQ) were addressed in the discussion session. Dean Keefe welcomed our new faculty and presented an overview of the College of Nursing Strategic plan (2007-2010).

Faculty Mentorship – All new faculty and existing faculty were matched with appropriate research and/or teaching mentors according to their identified mentorship needs. All new Division faculty met with the Division Chair to assist in identifying mentorship needs.

ACC Division Chair Individual Faculty and Group Meetings – The Division Chair met with each faculty member to discuss career development and promotion, annual goals, PhD and DNP

educational opportunities, Summer Scholarship Institute for faculty scholarship, and Division travel support. Three faculty were awarded Summer Scholarship Institute support: Sandy Smith, Kathleen Kaufman, and Lauri Linder.

Faculty Satisfaction – Annual Faculty Satisfaction Survey was deferred until Spring 2009.

Faculty Teaching Assignment Database – A new computerized database was developed and implemented for faculty workload and teaching assignment requests during Spring for the 2008-2009 academic year.

Goal 3 – Faculty Development Opportunities

Teaching Brown Bags – Seven teaching and international/community brown bag seminars were presented for CON faculty development for faculty from both Divisions (Health Systems and Community-Based Care Division; Acute and Chronic Care Division) throughout the academic year with lunch provided:

Table 16. Teaching & International / Community Brown Bags

Date	Topic	Presenter
10/29/07	Culturally Different Issues in End-of-Life Care Among Korean Americans	Hyun Sook Kim, PhD,RN Visiting Professor
11/12/07	Multi-Generational Collaboration: Essential Engagement Competencies	Phyllis Beck Kritek, PhD,RN,FAAN, Consultant
12/03/07	Teaching with TurningPoint Technology (Student Response Clickers)	Mike Muntean, TurningPoint Technology
12/11/07	Engaging the Online Learner: Key Points for Improving your Online Course	Monique Kovacs,RN, Teaching Nursing Master's Student
03/10/08	End of Life Nursing Education Consortium (ELNEC): Use of Graduate Level Course Material to Enhance Teaching	Pat Berry, PhD,APRN & Becky Burrage, FNP,APRN
04/08/08	International/Community Brown Bag – Community-Based Participatory Research: An International Research Experience in Ghana	Sarah Iribarren, RN, PhD Student
04/21/08	Oldies, But Goodies: Enhancing Gerontology Content in the UG Curriculum (GENAC Program)	Val Flattes, MSN, FNP and Donna Richards,PhD,RN

Faculty Scholarship Fellowship and Development – Four ACC Division faculty received CON Faculty Fellowships to support professional development through PhD and DNP education. Linda Mabey, Blaine Winters; DNP Program (2); and Lauri Linder (PhD Program), and Michael Johnson PhD, Educational Psychology.

Faculty Scholarship and Development Support (Travel) – Division funds were used to support 14 tenure-track and clinical faculty to travel for scholarly presentations and to attend professional conferences: Pat Berry, Mardie Clayton, Kristin Cloyes, Alexa Doig, Jodi Groot, Allen Hanberg, Liz Harold, Diane Kelly, Linda Mabey, Connie Madden, Thom Mansen, Ginger Marshall, Blaine Winters, and Bob Wong

Goal 4 – Seek Input From Faculty

Suggestions from faculty were solicited at each Division Meeting and faculty were encouraged to make submit their ideas via e-mail. We discussed the need for additional staff support and the results were submitted to ALT and reported in Division minutes. Faculty generally reported a need for additional WebCT support located in the college rather than via telephone. Clarification of support

for educational grants as well as what types of funding is available to support teaching activities was also requested.

- 04/08 Presentation: "Grief and loss", Volunteers of America-substance abuse recovery program
- 03/08 Presentation: "Life after loss", Sanderson Community Center for the deaf & hard of hearing
- 03/08 Presentation: "Caring for survivors of sudden and traumatic death", State of Utah-Police and Sheriff's Chaplains' Association
- 11/07 Presentation "Understanding depression", Stephen Ministry Presentation, Grace Lutheran Church, Sandy, UT
- 10/07 Presentation "Caring for the weaver", Caregiver support presentation at Utah Senior Expo Caregiver Conference, Salt Lake City, UT.

Awards / Honors / Recognitions

Susie L. Beck was appointed to the Beth and Robert Carter Endowed Chair in Nursing.

Margaret F. Clayton was awarded "2008 Dean's Alumni Award for Outstanding Professional Contributions" from the Lienhard School of Nursing, Pace University.

Alexa K. Doig was awarded the 2008 'University of Utah Early Career Teaching Award'. Alexa was also elected banner carrier for the College of Nursing Graduating class of 2008.

Allen Hanberg graduated from the University of Northern Colorado with a PhD in Nursing Education with an award for: Most outstanding dissertation and the Deans Citation for Excellence. Allen also received the 'Excellence in Simulation Research' award from the International Nurses Association for Clinical Simulation and Learning.

Lynn Hollister was awarded "Excellence in Teaching" by the University Of Utah College Of Nursing.

Ann P. Hutton was selected as keynote speaker for the Stanford, School of Nursing class reunion.

Michael B. Johnson was awarded the MSI steering committee grant by UUHSC in 2007.

Lauri Linder has been awarded an American Cancer Society fellowship for 2008-10. She has also been awarded a Dissertation Grant Scholarship by the Western Institute of Nursing / Council for the Advancement of Nursing Science.

Donna F. Richards was elected Banner Carrier for the College of Nursing Convocation and Commencement, University of Utah.

Ginette A. Pepper was appointed a Consulting Expert to the Robert Wood Johnson Foundation INQURI and the George and Betty Moore Foundation Medication management Initiative in November 2007. Pepper also received the Utah Nurse Practitioners Award for Excellence in Research.

Katherine P. Supiano received certification in Thanatology from the Association of Death Education and Counseling in 12/2007. Katherine was also a selected training participant for Advocating for Clinical Excellence (ACE) in Transdisciplinary Palliative care at City of Hope (CA).

Health Systems and Community-Based Care Division

Division Chair: Becky Christian, PhD, RN, Associate Professor

The HSCBC Division is comprised of 62 faculty. The HSCBC Division membership expanded with the addition of nine new faculty members.

Goals

1. Enhance open and clear communication among faculty, administration, and staff.
2. Enhance CON environment and HSCBC Division faculty satisfaction through recognition and rewards for faculty accomplishments.
3. Facilitate faculty career development and mentorship by Division Chair.
4. Improve faculty support with hiring and restructuring of Division secretarial support team.

Major Accomplishments and Actions

Goal 1 – Communication Among Faculty, Administration, And Staff

HSCBC Division Meetings – Four Division meetings (09/17/07; 11/19/07; 02/11/08; 04/21/08) were held throughout the academic year to communicate current issues within the Division, CON, ALT, and the University, as well as to provide an opportunity for faculty to discuss issues and concerns. Division minutes submitted as per Division Secretaries: Mirela Rankovic, Lorie Shreve (11/06 to 10/12/07; with FMLA 08/01/07 to 10/12/07); and Wendy Conrad (hired 11/26/07 to present).

Goal 2 – Faculty Satisfaction and Accomplishments

Faculty teaching, research, practice and service accomplishments were shared and highlighted at each HSCBC Division meeting. Faculty were recognized for their research and scholarship, practice, and service accomplishments throughout the year at Division meetings and at College Council.

Faculty Orientation – A combined HSCBC and ACC Division faculty orientation session was held for all new faculty in conjunction with the Fall Faculty Retreat on August 14, 2007 (1-4pm). Each faculty received a comprehensive orientation notebook with College of Nursing and University materials. Faculty guidelines and expectations were reviewed and frequently asked questions (FAQ) were addressed in the discussion session. Dean Keefe welcomed our new faculty and presented an overview of the College of Nursing Strategic plan (2007-2010).

Faculty Mentorship – All new faculty and existing faculty were matched with appropriate research and/or teaching mentors according to their identified mentorship needs. All new Division faculty met with the Division Chair to assist in identifying mentorship needs.

Teaching Performance – Outstanding faculty teaching performance based on student teaching evaluations (SETI) included of the following 25 Division faculty: Mandy Al-Khudairi, Gerrie Barnett, Kim Brown, Becky Burrage, Becky Christian, Lauren Clark, Ann Deneris, Jane Dyer, Marianne Fraser, Diane Fuller, Joanne Haefle, Dale Lund, Shahnaz Moezzi, Katie Morgan, Patricia Murphy, Patricia Pearce, Erin Rothwell, Paula Siciliano, Jackie Smith, Nancy Staggers, Kathy Sward, Celeste Thomas, Gillian Tufts, Scott Wright, and Helen Zsohar.

Research and Scholarship – HSCBC Division Faculty presented research brown bag seminars to disseminate findings and facilitate CON faculty development. Ten HSCBC Division faculty presented 7 research brown bag seminars throughout the academic year:

HSCBC Division Chair Individual Faculty and Group Meetings – The Division Chair met with each faculty member to discuss career development and promotion, annual goals, PhD and DNP educational opportunities, Summer Scholarship Institute for faculty scholarship, and Division travel support. In addition, the Division Chair met with the following faculty teaching and practice groups:

UG Community Health Nursing faculty, NP Program faculty, Gerontology Interdisciplinary Program faculty, and CNM/WHNP faculty practicing at Ellis R. Shipp BirthCare-HealthCare.

Faculty Satisfaction – Due to the large number of administrative position reviews (5), the relevant information was obtained through the HSCBC Division Chair 3rd year performance review, thus the annual Faculty Satisfaction Survey was deferred until Spring 2009.

Faculty Teaching Assignment Database – A new computerized database was developed and implemented for faculty workload and teaching assignment requests during Spring for the 2008-2009 academic year.

CON Building Renovation Report – HSCBC Division representative Jane Dyer reported renovation plans and progress at Division meetings.

HSC Cultural Competence Course – Linda Edelman and Lauren Clark volunteered to participate in taking this new HSC course in Spring 2008.

Goal 3 – Faculty Career Development and Mentorship

Teaching Brown Bags – Seven teaching and international/community brown bag seminars were presented for CON faculty development for faculty from both Divisions (Health Systems and Community-Based Care Division; Acute and Chronic Care Division) throughout the academic year with lunch provided (See Table 16 Page 31).

Faculty Scholarship Fellowship and Development – Twelve HSCBC Division faculty received CON Faculty Fellowships to support professional development through PhD and DNP education. [**PhD Program (3)**: J.Dyer, J.Haeffle, D.Penney]; **DNP Program (9)**: J.Allen, M.Al-Khudairi, D.Fuller, S.Hall, T.Kilgore, G.Maharaj, H.Martin, P.Siciliano, G.Tufts].

Faculty Scholarship and Development Support (Travel) – Division funds were used to support 18 tenure-track and clinical faculty to travel for scholarly presentations and to attend professional conferences (P.Brooke, B.Burrage, S.Chase-Cantarini, L.Clark, A.Deneris, L.Edelman, M.Fraser, J.Haeffle, J.Martin, P.Pearce, M.Poynton, MK.Reynolds, L.Roberts, E.Rothwell, P.Siciliano, K.Sward, C.Thomas, G.Towsley). The NP Program Faculty Development Summer Retreat was partially supported with Division Funds. Both Divisions supported travel for a faculty representative from each Division to attend the AACN Baccalaureate Essentials conferences (M.Fraser, HSCBC Division; Connie Madden, ACC Division).

Goal 4 – HSCBC Division Secretarial Support

The HSCBC Division faculty support team included Mirela Rankovic (Administrative Assistant) and Lorie Shreve (Executive Secretary, hired 11/16/06). Brenda Palmer continued to provide WebCT and distance technological support to faculty in both Divisions (25%FTE). Mirela provide ALL support to Division faculty during Lorie's FMLA and after her resignation until we were able to hire a new Executive Assistant on 11/26/07. The HSCBC Division support team continued to provide support for student admissions and advising to the Gerontology Interdisciplinary Program (Master's degree and certificate program).
