OPPORTUNITIES FOR STUDENTS AT THE COLLEGE OF NURSING .................................................................................. 288  

- 2 -
Dear Student:

Congratulations on your admission to the University of Utah College of Nursing. The college is a dynamic and ever changing organization that prepares nurses for a variety of opportunities in healthcare. The undergraduate program focuses on the delivery of evidence-based, patient centered, and professional nursing care. The plan of study includes classroom courses, outstanding patient care simulations, inter-professional activities, and clinical experiences in a variety of settings. The faculty is nationally known for their areas of expertise and is eager to help you learn.

As you become oriented to the College of Nursing, it is important that you acquaint yourself with policies, procedures, and resources. We trust that this manual will be helpful to you as you progress through your program of study.

This manual is intended to serve as a guide and reference document for you. The major areas of importance to which we draw your attention include the policies and procedures related to baccalaureate admissions and advancement, professional behavior and expectations, and student services.

It is hoped that this manual will be helpful to you. If you have recommendations on how to improve its content or usefulness, please share your suggestions with the Office of Student Services and Academic Affairs.

Congratulations on your admission to the College of Nursing, and best wishes as you embark on the adventure that is nursing education!

Sincerely,

Patricia Gonce Morton, PhD, RN, FAAN Dean and Professor
COLLEGE OF NURSING Mission and Vision

The University of Utah College of Nursing supports the mission and vision of the University, and is an integral part of the University of Utah Health. We serve the public by improving health and quality of life through excellence in nursing education, research, and clinical care.

VISION STATEMENT

As a College, our vision is to develop leaders in nursing and health care whose actions, discoveries, and voices strengthen and transform the health of individuals and communities worldwide.

MISSION STATEMENT

The College of Nursing’s mission is to advance health through excellence in nursing and interdisciplinary teaching, research, practice, and service.

BACCALAUREATE PROGRAM OUTCOMES

The baccalaureate program at the University of Utah is designed to reflect the mission and philosophy of the University and the vision, mission, goals and expected outcomes of the College of Nursing.

Graduates of the baccalaureate program will achieve the following:

1. Deliver safe, evidence-based, patient-centered nursing care.
2. Advocate for the well-being of patients and the profession as leaders and managers.
3. Apply foundations of knowledge in humanities and sciences to professional nursing practice.
4. Collaborate and communicate effectively to improve patient outcomes.
5. Demonstrate professionalism consistent with standards of moral, ethical and legal nursing practice.
6. Utilize information management and technologies to lead safe, quality patient care.
7. Integrate theory and research into evidence-based practice.
8. Recognize that health care delivery and professional nursing practice occur within contexts of social, economic, and political environments.
9. Promote health and healthy behaviors through collaborative population-focused interventions.

*across all settings

The College of Nursing understands that the preparation of professional nurses is grounded in a solid understanding of human behavior and pathophysiologic alterations affecting humans with emphasis on practices that results in increased health of the general population, including underrepresented and culturally and ethnically diverse groups, as well as cost-effective coordinated care.

The courses at the baccalaureate level focus on the competencies and skills professional nurse will need in the 21st century.
STATEMENT OF BELIEFS ABOUT ACADEMIC INTEGRITY

We believe that:

• Faculty and students are individually and mutually responsible for maintaining academic integrity to support a foundation of professional integrity.

• A professional code of conduct is an inherent component of academic integrity.

• Faculty members have a responsibility to model professional teaching and mentoring behaviors.

• Faculty and students are mutually accountable and responsible for maintaining a positive learning environment.

• Faculty and students have a reciprocal commitment and responsibility to identify and report behavior that is not consistent with academic integrity. Examples of reportable behaviors include, but are not limited to plagiarism, unprofessional behavior, cheating, unethical conduct of nursing research, and disruptive behavior.

• These beliefs about academic integrity apply in each and every learning environment, encompassing clinical, didactic, scholarly and research activities.
POLICIES AND PROCEDURES

PROGRESSION

The Baccalaureate Admissions and Advancement Committee (BAAC) has the responsibility to review student academic and professional records to determine eligibility for progression and readmission to the program.

A. Criteria for Progression

1. Letter grades of “C” or better are required in all nursing courses (“C-” grades are not acceptable and are considered to be a failing grade.
2. A minimum 2.00 cumulative GPA is required for graduation from the University of Utah.
3. Didactic and clinical courses must be completed satisfactorily before advancement to the next courses in sequence. Alterations in the printed program of study must be pre-approved by the relevant faculty and the BAAC.
4. Incomplete (“I”) grades in clinical and the accompanying didactic course may not be carried over from one course to the next didactic or clinical course in the progression sequence. This policy supersedes the University policy regarding incomplete grades.
5. Students in the nursing major are required to complete all General Education requirements for the BS degree at the University of Utah prior to registering for NURS 4650 Capstone. Exceptions to this policy must receive prior approval by the BAAC.

B. Academic Action / Academic Misconduct / Academic Sanction

“Academic action” means the recording of a final grade (including credit/no credit and pass/fail) in a course, on a comprehensive or qualifying examination, on a culminating project, or on a dissertation or thesis. It also includes a decision by the appropriate department or college committee to place a student on academic probation, or to suspend or dismiss a student from an academic program because the student failed to meet the relevant academic standards of the discipline or program. The term “academic action” does not include the decision by a department or program to refuse admission of a student into an academic program. Academic action also does not include academic sanctions imposed for academic misconduct or for professional misconduct.

“Academic misconduct” includes, but is not limited to, cheating, misrepresenting one’s work, inappropriately collaborating, plagiarism, and fabrication or falsification of information. It also includes facilitating academic misconduct by intentionally helping or attempting to help another commit an act of academic misconduct (for further discussion of this section “B”, refer to the “Policies Related to Cheating and Plagiarism” section in this document).

“Academic sanction” means a sanction imposed on a student for engaging in academic or professional misconduct. It may include, but is not limited to, requiring a student to retake an exam(s) or rewrite a paper(s), a grade reduction, a failing grade, probation, suspension or dismissal from the program or the University, or revocation of a student’s degree or certificate. Refer to the University of Utah Regulations (http://www.regulations.utah.edu/academics/6-400.html) for a further detailed discussion. (University Regulations: Policy 6-400 Rev 6: Chapter X, Sections I – VI).
C. In the College of Nursing students are placed on academic probation for:

1. Receiving a grade below “C” in a required nursing course.
2. Inappropriate or unsafe clinical performance.

In order to remain in the program, a course receiving a “C-” or below must be retaken the next semester the course is offered, pending space availability. Once a student is placed on academic probation, the student is required to meet with the Baccalaureate Advisor in Academic Programs and Student Services to plan a continued course of study. This plan shall then be submitted to the BAAC for approval. Nursing courses may be retaken once. (Refer to the Suspension/Dismissal section below).

D. Grade Appeal

If a student fails a course and files a formal grade appeal, eligibility for continued enrollment for nursing clinical courses depends on BAAC approval. (See the College of Nursing Baccalaureate Advisor in Academic Programs and Student Services for procedures for filing an appeal and the University of Utah Regulations.)

E. Suspension / Dismissal

Student suspension or dismissal from the nursing program will be recommended for any of the following:

1. Receiving a grade of “C-” or less in the same nursing course twice
2. Receiving grades of “C-” or less in 2 nursing courses during the student’s enrollment in the nursing program
3. Failure to maintain a cumulative GPA of 2.00
4. Unsafe clinical practice
5. Unprofessional behavior

Instructors documenting student behavior as unsafe or unprofessional must submit written documentation to the BAAC.

Suspended students must remain out of the program for one calendar year. Students readmitted must meet program requirements in effect at that time. If a student fails a course after readmission, he/she will be dismissed from the program.

Dismissal from the nursing program is final. A student who is dismissed from the University for behavioral misconduct may not petition for reinstatement.

G. Program Modification

Program modification is designed to meet the individual needs of students who may find it necessary to modify program progression. Early preliminary planning is necessary to facilitate placement and increase the options available to students. Criteria for program modification are:

1. Any student with a modified program must meet all prerequisites to the involved course.
2. Application (in writing) for program modification must be initiated by the student and
submitted to the BAAC before the end of the semester preceding the semester for which the request pertains. If the request is made after this deadline, the BAAC will consider whether it will accept the request or not.

3. Program modification will be developed by the student in consultation with the Pre-licensure Academic Program Manager in the Student Services office.

4. Final approval of the student’s program modification by the BAAC is required before the program is implemented. Program modification is dependent on availability of space in courses.

H. Interrupted/Readmission/Withdrawal/Leave of Absence

Students in good standing who interrupt their program of study for reasons listed below, shall notify, in writing, the BAAC of their intent to withdraw and anticipated date of return. Notification to the BAAC is required a full semester prior to the intended semester of re-entry to assure proper placement. Re-entry to the program is not automatic and depends on space and availability of courses. Students must complete the program requirements in place at the time of re-entry or readmission.

Students who are not in good standing (i.e., on probationary status) and who interrupt their program of study shall be required to file a readmission application which will be evaluated by the BAAC. The readmission application must be submitted at least a full semester prior to the intended date of re-entry. Eligibility for readmission is determined by BAAC.
Withdrawal from individual courses is according to University policy. Withdrawal from the nursing program must be made in writing to the BAAC. Students who are withdrawing from the program must also meet with the Academic Program Manager in Student Services and the Assistant Dean for the Baccalaureate Program and Student Services prior to withdrawal.

LEAVE OF ABSENCE
A student wishing to discontinue study for one or more semesters must file a Request for Leave of Absence form available from the College of Nursing Student Services and Academic Programs Office. Leaves of Absence (LOA) are only granted for extenuating and unusual circumstances. Circumstances may include but are not limited to:

- Family Leave
  - Serious health condition for you, your spouse, child, or parent
  - Chronic conditions that incapacitate you or your family member
  - Pregnancy
    Students who experience a medical condition associated with their pregnancy and need accommodations recommended by their medical provider, should contact the University’s Title IX Coordinator, who will work with the student cognizant faculty, and administration to determine what accommodations are reasonable and effective.
  - Expanding your family
    - childbirth
    - adoption
- Military service
- Conflict with outside work, especially if beneficial to your academic goals

LOAs must be approved by the Baccalaureate Admissions and Advancement Committee.
Leaves are granted for a maximum of one academic year at a time. In making a decision to grant a LOA to a student, the College of Nursing will take into consideration if faculty resources will be available for
students upon return to the College. The committee reserves the right to deny a LOA request. An LOA does NOT extend the time period for finishing an incomplete. The LOA is void if a student registers for classes in a semester for which a leave was granted.

I. Graduation

Graduation applications must be completed through your Campus Information Services (CIS) portal. Applications are due a semester before graduation. For more information, refer to the Office of the Registrar’s website: http://registrar.utah.edu/handbook/undergradgraduation.php.

J. Licensure

Eligibility for taking the licensing examination is dependent upon completing all graduation requirements of the College of Nursing and the University of Utah. Information regarding Licensure can be found at http://www.dopl.utah.gov. Passing the NCLEX exam is each student’s responsibility.

COLLEGE OF NURSING PROFESSIONAL GUIDELINES

The College of Nursing identifies unprofessional behavior as a cause for an academic dismissal. An academic action may be overturned on appeal only if the academic action was arbitrary or capricious (i.e., all of the important facts were not considered). The College believes that professional behavior is an integral part of each student’s nursing education.

Unprofessional behavior is defined in Section R156-31b-502 of the Utah Nurse Practice Act. The ANA Code for Nurses also defines professionalism, as follows:

AMERICAN NURSES ASSOCIATION CODE OF ETHICS

1. The nurse practices with compassion and respect for inherent dignity, worth and unique attributes of every person.
2. The nurse’s primary commitment is to the patient, whether an individual, family group, community or population.
3. The nurse promotes, advocates for, and protects the rights, health, and safety of the patient.
4. The nurse has authority, accountability, and responsibility for nursing practice: makes decision; and takes action consistent with the obligation to promote health and to provide optimal care.
5. The nurse owes the same duties to self as others, including the responsibility to promote health and safety, preserve wholeness of character and integrity, maintain competence, and continue personal and professional growth.
6. The nurse, through individual and collective effort, establishes, maintains, and improves the ethical environment of the work settings and conditions of employment that are conducive to safe, quality health care.
7. The nurse, in all roles and settings, advances the profession through research and scholarly inquiry, professional standards development, and the generation of both nursing and health policy.
8. The nurse collaborates with other health professionals and the public to protect human rights, promote health diplomacy, and reduce health disparities.
9. The profession of nursing, collectively through its professional organizations, must articulate nursing values, maintain the integrity of the profession, and integrate principles of social justice into nursing and health policy.

CLASSROOM, CLINICAL, and SIMULATION CENTER BEHAVIOR

All students in the College of Nursing are expected to maintain professional behavior in classroom, clinical, and simulation settings. Professional behavior includes, but is not limited to:

- Attending orientations, class, clinical and simulation activities
- Meeting all course schedule due dates and timelines, which includes
  - Arriving and leaving as scheduled.
  - Submitting assignments and quizzes by the identified due date and time.
  - Taking exams as scheduled.
  - Completing all requirements for clinical placement by the identified due date.
- Adhering to the appropriate dress code when in clinical.
- Accepting responsibility for own actions.
- Requesting a deadline extension or excused absence prior to the deadline or scheduled date, in writing that details the extenuating circumstances for the request. NOTE: faculty are not obligated to grant approval of deadline extensions or excused absence.
- Interacting with others (Peers, faculty, staff, patients) in a respectful, sensitive, and nonjudgmental manner

Faculty members acknowledges that emergencies occur and will work with students on an individual basis. Note: emergencies do NOT include:

- Scheduling work or vacation during class or clinical or final exam times. (Missing class in order to work is not an excused absence.)
- Non-emergent doctor or dental appointments.
- Being fatigued due to your own actions.
- Planning “special” events that interfere with class or clinical time.

Expectations and Professional Behavior Standards

- Respect other’s space. Use cell phones appropriately and respectfully.
- Arrive on time for simulation, clinical and class, and stay until it ends.
- Maintain a professional appearance and image.
- Prepare for class, clinical, and simulation.
- Communicate honestly and respectfully.
- Monitor non-verbal behavior.
- Demonstrate empathetic caring for others.
- Maintain confidentiality of all patient information
- Work collaboratively with peers.
- Maintain academic and personal honesty and integrity.
• Uphold personal and professional ethics.
• Respect all individuals’ differences (i.e., culture, ethnicity, religion, work experience, gender, age, sexual orientation, etc.).

CONSEQUENCES OF UNPROFESSIONAL BEHAVIOR

When problem behaviors are identified, the involved faculty member will:

1. Counsel the student on the unacceptable behavior and indicate what type of behavioral change is expected and within what time frame, and consequences for not meeting expectations.
2. Faculty will document, in the student’s file and/or in the ADVOCATE system, the unprofessional behaviors, the actions taken, and potential consequences.
3. The student will sign the document indicating that they have read and understand the document. The student will receive a copy of the document.
4. Faculty will notify the Assistant Dean for the Baccalaureate Program and Student Services and the Academic Program Manager in Student Services and will send a copy of the signed document to be placed in the student file.
5. If a decision regarding program progression needs to be made, the incident will be referred to the BAAC.
6. In all cases, when a progression or academic sanction decision is made, the Assistant Dean for the Baccalaureate Program and Student Services will inform the Associate Dean for the Academic Programs.

If the student violates the University of Utah Student Code, he/she will be counseled and documentation will be placed in the student’s file. The Assistant Dean for Undergraduate Programs, the BAAC, and the Director of Academic Programs and Student Services will be notified. The BAAC may either refer to the University of Utah Academic Misconduct Committee or make a recommendation to the Associate Dean for the Academic Programs.

This database is in addition to any University policies regarding academic or professional misconduct. Students should be familiar with the Student Code (http://regulations.utah.edu/academics/6-400.php) and be aware that serious violations of University policies on Academic and Professional Misconduct may result in termination or dismissal.

POLICY RELATED TO A STUDENT RECEIVING AN ACADEMIC FAILURE IN GRADES /UNSATISFACTORY BEHAVIOR

1. If a student receives a failing grade (C- or lower) in a course, initially the student must discuss the situation with the involved faculty. If the student wishes to address the situation further, he/she may then contact the coordinator of the course. If the outcome is unsatisfactory, the student may then meet with the Assistant Dean for Undergraduate Programs. The student may also write a letter to the BAAC stating his/her position. Lastly, the student may meet with the Associate Dean for Academic Programs to discuss the matter.
2. The BAAC is responsible for evaluating a student’s progression status once the student has failed a course and/or demonstrated unsatisfactory behavior.
3. The student may appeal a grade by following the procedures outlined in the University Student Code.

POLICIES RELATED TO CHEATING AND PLAGIARISM
The University of Utah policies on plagiarism and cheating are clear. The University of Utah Student Code defines academic dishonesty as:

Academic misconduct includes, but is not limited to, cheating, misrepresenting one’s work, inappropriately collaborating, plagiarism, and fabrication or falsification of information... It also includes facilitating academic misconduct by intentionally helping or attempting to help another to commit an act of academic misconduct.

“Cheating” involves the unauthorized possession or use of information, materials, notes, study aids, or other devices in any academic exercise, or the unauthorized communication with another person during such an exercise. Common examples of cheating include, but are not limited to:

- copying from another student’s examination,
- submitting work for an in-class exam that has been prepared in advance,
- having another person take an exam for you,
- altering one’s work after the work has been returned and before resubmitting it, or violating any rules relating to academic conduct of a course or program.

Misrepresenting one’s work includes, but is not limited to, representing material prepared by another as one’s own work; submitting the same work in more than one course without prior permission of both faculty members.

“Plagiarism” means the intentional unacknowledged use or incorporation of any other person’s work in, or as the basis for, one’s own work offered for academic consideration or credit, or for public presentation. Plagiarism includes, but is not limited to, representing as one’s own, without attribution, any other individual’s words, phrasing, ideas, sequence of ideas, information or any other mode or content of expression.

“Fabrication or falsification” includes reporting experiments or measurements or statistical analyses never performed; manipulating or altering data or other manifestations of research to achieve a desired result; falsifying or misrepresenting background information, credentials or other academically relevant information; or selective reporting, including the deliberate suppression of conflicting or unwanted data. It does not include honest error or honest differences in interpretations or judgments of data and/or results.

The complete University of Utah Code of Student Rights can be found on the University web site, at http://regulations.utah.edu/academics/6-400.php

ACADEMIC MISCONDUCT AND APPEALS COMMITTEE

The Academic Misconduct and Appeals Committee of the University of Utah College of Nursing provides students and faculty with a vehicle for the making of decisions relative to student contested academic actions, academic sanctions for misconduct, and dismissals from participating in class. The Committee functions in accordance with the directives outlined in the University of Utah Code of Student Rights at http://regulations.utah.edu/academics/6-400.php

AMERICANS WITH DISABILITIES ACT OF 1990
The University of Utah follows all regulations under the “Americans with Disabilities Act of 1990.” The College of Nursing, following ADA guidelines, will “provide reasonable accommodations for qualified students with disabilities unless it constitutes an undue hardship to do so. Learning disabilities are included in this Act. IT IS THE RESPONSIBILITY OF THE STUDENT TO DISCLOSE THE DISABILITY. Reasonable accommodations cannot be made unless the instructor receives documentation of the disability and, in some cases, instructions or suggestions for making necessary accommodations. For further information regarding disability services and student/faculty responsibilities go to http://disability.utah.edu/.

The University Center for Disabled Student Services is located in 162 Olpin Student Union (801-581-5020). Students are encouraged to contact the Center with questions, concerns, or when they require assistance.

When any issues arise pertaining to ADA guidelines, the College of Nursing will refer the situation to the ADA office for evaluation and that office will issue a report.

SEXUAL HARASSMENT

The University of Utah expects members of the University community to treat one another with respect. Sexual harassment is a violation of Title IX of the Educational Amendments of 197, and is a violation of University policy. For further information go to http://regulations.utah.edu/human-resources/5-210.php or contact the Office of Equal Opportunity and Affirmative Action at 801-581-8365.

PRIVACY RIGHTS OF STUDENTS

The University of Utah and the College of Nursing are committed to protecting the privacy rights of students. In general, student records, files or general information are NOT released to anyone other than the student. The College of Nursing will not give out scholastic or personal information about students. The College will take messages in an emergency situation, but will NOT provide families or friends with the means to contact the student. If you want people to know how to find you when you are in class or clinical, you need to inform them.

BREASTFEEDING AND BREAST PUMPING POLICY

University Student Code protects the rights of all students to have a classroom environment that is conducive to learning. Our College strongly supports breastfeeding and breastfeeding success, which includes pumping of breastmilk while students are separated from their babies.

- In accordance with University of Utah policy attendance in class is restricted to only those who are registered, or guests who have prior faculty approval.
- Students are allowed by all course instructors, without penalty, time to leave class to pump breastmilk or breastfeed their infant whenever they need to up to one year after the birth of their babies.
  - The College of Nursing provides a private, dedicated lactation room on the 3rd floor of the College of Nursing for breastfeeding and pumping.
- Students must communicate their needs for leaving the classroom to breastfeed or pump breast milk to the course instructor.
- Students are responsible to make alternative arrangements for obtaining missed content.
For students needing accommodation in the clinical setting to express breast milk, students must contact their instructor or preceptor prior to leaving the clinical area for a mutually-agreeable, reasonable time. Flexible break time or meal time can be used for this accommodation. The University Of Utah College Of Nursing has no responsibility or control of the availability and/or quality of lactation facilities in a clinical area. The student is responsible for finding a location, bringing necessary supplies, and storing expressed breast milk.

General Statement Regarding Social Media

Many students use various forms of social media, including but not limited to wikis, blogs, list serves, websites, and social networking sites. When using social media, students are expected to act with courtesy and respect toward others.

Regardless of where or when they make use of these media, students are responsible for the content they post or promote. Students may be subject to action by the University for posting or promoting content that substantially disrupts or materially interferes with University activities or that might lead University authorities to reasonably foresee substantial disruption or material interference with University activities. This action may be taken based on behavioral misconduct, and may range from a reprimand or failing grade to dismissal from a program or the University.

Guidelines for Use of Social Media

Use of social media is prevalent among students. Students should be aware that unwise or inappropriate use of social media can negatively impact educational and career opportunities. To avoid these negative impacts, students should consider the following:

- Post content that reflects positively on you and the University. Be aware not only of the content you post, but of any content that you host (e.g., comments posted by others on your site). Content you host can have the same effect as content you post.

- Though you may only intend a small group to see what you post, a much larger group may actually see your post. Be aware that your statements may be offensive to others, including classmates or faculty members who may read what you post.

- Employers and others may use social media to evaluate applicants. Choosing to post distasteful, immature, or offensive content may eliminate job or other opportunities.

- Once you have posted something via social media, it is out of your control. Others may see it, repost it, save it, forward it to others, etc. Retracting content after you have posted it is practically impossible.

- If you post content concerning the University, make it clear that you do not represent the University and that the content you are posting does not represent the views of the University.

- Make sure the content you post is in harmony with the ethical or other codes of your program and field. In certain circumstances, your program may have made these codes binding on you, and violations may result in action against you.

- If you are in a program that involves confidential information, do not disclose this information. The University may take action against you for disclosures of confidential information.

- Realize that you may be subject to action by the University for posting or promoting content that substantially disrupts or materially interferes with University activities or that might lead University authorities to reasonably foresee substantial disruption or material interference with
University activities. This action may be taken based on behavioral misconduct, academic performance, academic misconduct, or professional misconduct, and may range from a reprimand or failing grade to dismissal from a program or the University.
HEALTH & SAFETY REQUIREMENTS FOR NURSING STUDENTS

All students in the College of Nursing must meet the following requirements prior to beginning their experience at any health care facility in the state of Utah. These requirements are designed to protect the student, as well as the patients, and staff with whom students have contact. Therefore, all the requirements are MANDATORY. You will NOT be allowed in clinical agencies without the appropriate verification.

I. MANDATORY TRAINING FOR COMPLIANCE WITH FEDERAL HEALTH INSURANCE PORTABILITY AND ACCOUNTABILITY ACT

All students in the College of Nursing are required to complete a federally mandated, web-based, training session on the Health and Insurance Portability and Accountability Act of 1996 (HIPAA). You are also required to renew this training annually for the duration of their program.

II. MANDATORY TRAINING FOR COMPLIANCE WITH OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION REQUIREMENTS

All students in the College of Nursing are required to complete a federally mandated, web-based, training OSHA training on: fire safety, handling of hazardous materials, electrical safety, and preventing the spread of disease. You are also required to renew this training annually for the duration of their program.

III. CARDIOPULMONARY RESUSCITATION CERTIFICATION

All students in the College of Nursing must be Cardiopulmonary Resuscitation (CPR) certified before the first day of class. This certification must be from the American Heart Association (AHA) and it must cover both Adult and Infant CPR. Additionally, this certification must be renewed when it becomes due. You must provide a copy of your AHA CPR card to your tracking profile for verification prior to the first day of class. No online certifications are acceptable.

IV. PHYSICAL SCREENING

All students in the College of Nursing must complete a physical examination with their healthcare provider to confirm they can safely participate in clinical activities.
V. **TUBERCULOSIS SCREENING REQUIREMENTS**

*All students* must be screened for TB annually. Initially, one of the following is required:

1. 2-step TST (two separate Tuberculin Skin Tests, aka PPD tests, traditionally given within 3 weeks of each other, but acceptable within 12 months) with negative results.
2. One QuantiFERON Gold blood test with a negative result
3. One T-SPOT blood test with a negative result

After completion of this initial requirement, you must renew your screening annually. This can be done with a single step PPD test, or a blood test such as QuantiFERON Gold or T-SPOT. The screening **must be completed before your previous test expires**.

*If you test positive* while completing one of the tests above, or if you have previously tested positive to any TB test, you must submit proof of a clear chest x-ray to your tracking profile. The x-ray must be read by a radiologist. Thereafter, you must submit a symptom checklist annually. If your checklist is abnormal or you develop symptoms indicative of active TB, you must be cleared by your physician or the local health department before you can participate in clinical activities.

VI. **IMMUNIZATION REQUIREMENTS:**

*All students* in the College of Nursing must be current on the following immunizations and must provide documentation by uploading it to their immunization tracking profiles.

1. Tetanus / Diphtheria / Pertussis  
   — known as Tdap  
   — current if received within the last 10 years  
   — accepted proof: record of vaccination

2. Measles (Rubeola) / Mumps / Rubella  
   — known as MMR  
   — accepted proof: record of two (2) vaccinations *or* proof of immunity to all three diseases via blood test results

3. Varicella (Chicken Pox)  
   — accepted proof: record of two (2) vaccinations *or* proof of immunity via blood test results.

4. Hepatitis B  
   — accepted proof: documentation of three (3) vaccinations *and* a titer proving immunity (result of “reactive”).  
   — Students who are currently in process of receiving their vaccinations are allowed to begin their rotation.  
   — If the titer administered after the three (3) vaccinations does not prove immunity (result of “not reactive”), student must redo the series. Students will be considered “non-responders” after documentation of completing the vaccination series twice (total of 6 vaccinations) followed by a “not reactive” titer result.

5. Seasonal Influenza  
   — must be renewed yearly, after September 1, with current season’s vaccination
— accepted proof: proof of vaccination

Additional information regarding immunizations, training and testing obligations:

1. Immunization requirements are subject to change based upon the needs of the College of Nursing’s clinical partners. Students are obligated to meet any new or modified requirement.

2. If clinical agencies have additional health specifications, students who are assigned to those agencies will be required to meet them.

3. Neither the University of Utah nor the College of Nursing is responsible for the payment of expenses incurred by the student for laboratory tests, immunizations, hospitalizations, or other health care expenses.

4. Compliance with health/immunization requirements is necessary to maintain clinical placement. Failure to do so will result in removal from the clinical practicum.

Where to Obtain Immunizations:

Required immunizations and tuberculin skin testing may be obtained in one of the following manners (all associated costs are the responsibility of the individual student):

1. From a private healthcare provider

2. Salt Lake County Health Department:
   610 South 200 East, 801-534-4666
   2001 South State Street, 801-468-2813
   9340 South 700 East, 801-255-7114

3. University of Utah Student Health Service
   555 Foothill Blvd, Madsen Health Center, 801-581-6431
   Basement level, free parking, accessible by Campus Shuttle

These requirements must be completed in order to maintain clinical placement. Failure to do so will result in removal from clinical practicum.

Faculty Right to Request Medical Clearance

College of Nursing faculty, especially those who teach students in clinical or laboratory settings, have the right to request written medical clearance from the student’s health care provider if there is reason to believe that a known or suspected problem or illness (physical or emotional) may compromise patients, staff, faculty, peers or the student’s own health, welfare and safety. The student will not be allowed in the clinical area and/or classroom until such documentation is obtained. A copy of the letter from the health care provider will be kept on file in the Office of Academic Programs and Student Services. All expenses related to the medical clearance are the sole responsibility of the student.
VII. DRUG SCREENING:

The College of Nursing supports the University of Utah Health Sciences Drug Testing Policy.

The policy of the University of Utah Health Science Center is to maintain a drug-free workplace to establish, promote and maintain a safe and healthy environment for patients and a safe, healthy, working and learning environment for employees, students and volunteers. It shall be a violation of this policy for any covered individual to engage in the unlawful manufacture, distribution, dispensation, possession or use of a controlled substance at the work place, including being under the influence or impaired at the work place, while engaged in university business on or off campus, or in any manner that violates criminal drug statues.

Student drug screening is a requirement as the University of Utah College of Nursing places students in appropriate clinical educational facilities. The drug screen is a Urine Screen (10 Panel). This test is a basic drug screen for illegal drugs and is required of all students prior to placement into clinical learning experiences and sites. If an agency requires a different panel, it is still the student’s responsibility to obtain the designated panel.

Confidential test results are sent to the College of Nursing from a secured website or via an encrypted email attachment. Testing will be administrated by Castlebranch.

Invasive Procedures

Students may practice skills that involve invasive procedures in the simulation learning center only on mannequins and task training equipment provided specifically for a simulated scenario or particular skill practice. Students may not practice invasive skills on each other, instructors or teaching assistants, preceptors, lab personnel, standardized patients (expect those specifically contracted for a specialized procedure) or anyone else under any circumstance. In clinical settings, students may perform invasive procedures under the supervision of a registered nurse on a patient who has a therapeutic need for the procedure. Violation of this policy will result in student failure of the involved nursing course.
ACADEMICS

REGISTERING FOR CLASSES & TUITION INFORMATION

University Class Schedule information is available at http://www.utah.edu/students/catalog.php. All students MUST be registered for courses PRIOR TO the first day of class. Students are expected to provide written verification of enrollment in each course. When you register, you can print a copy of your registration from the Web – this serves as your verification. No student will be allowed to remain in class, or to enter a clinical area, without this verification. Unlike some of the community colleges, you do not have to pay for courses on the day you register. Tuition bills are not sent out to students so it is important that you are familiar with the tuition policies and deadline dates. This information can be found at http://fbs.admin.utah.edu/index.php/income/. Tuition not paid by the deadline will result in cancellation of your class registration and interruption in your program of study.

COLLEGE OF NURSING SCHOLARSHIPS

Students who are applying to or have been officially admitted to the nursing program are eligible to apply for College of Nursing scholarships. The application is entirely electronic, and College of Nursing scholarships are posted to https://utah.academicworks.com/ two to three months prior to the deadline.

All applications must be submitted online by 11:59 p.m. Mountain Time, on the day specified as the deadline. Criteria for these scholarships vary, but most are offered based on merit and demonstration of financial need.

When other scholarships or financial aid opportunities become available, students will be advised email or Canvas. Please keep your email current in the University of Utah Campus Information System. Most financial aid on campus is distributed through the Office of Financial Aid and Scholarships, housed in the Student Services Building on main campus. For questions regarding federal and state student aid or university-wide scholarships, please contact financialaid@sa.utah.edu or 801-581-6211.

UNIFORMS

You will be required to wear a standard uniform and maintain appropriate hygiene and grooming while in clinical settings utilized by the College of Nursing. You will be expected to dress and act professionally at all times when in the clinical area. No body piercing besides earrings are allowed, and artificial nails are prohibited as they harbor bacteria. Tattoos should be covered. Institutional requirements for specific clinical agencies that may further define dress codes will be adhered to in those institutions.
You are required to purchase black scrub pants and white scrub tops. The College of Nursing patch will be available for you to purchase and must be worn on the LEFT shoulder of your white scrub shirt or lab coat. Additional patches can be purchased online from the Student Services Market found in Canvas. You will also be required to wear a University ID card, which states your name followed by Student Nurse. This name badge will be on the LEFT chest. It must be worn AT ALL TIMES YOU ARE IN A CLINICAL AREA. Your ID badge will be available at orientation.

Shoes must be closed-toe and made of material that can be wiped off (not cloth). Students are allowed to wear a white short or long-sleeved t-shirt under their uniforms if desired. Your uniform must be worn whenever you are in any clinical area, which includes the simulation learning center in the College of Nursing.
There are a number of companies that sell nursing uniforms. We recommend comparing brand names and shopping for quality and best value. You are required to have your complete uniform by the first day of class. The Health Sciences Bookstore typically offers great discounts on scrubs to nursing students.

**Dress Code**

These rules are in accordance with the University of Utah Hospital, IHC and the VA. Please use them as a guideline for all clinical rotations. Remember you are representatives of the College of Nursing while in these situations, whether you are there for clinical rotations or to gather patient information in preparation for clinical.

**Dress and Grooming Code for the University Hospital**

- Scrub tops that fit appropriately, look professional, and are wrinkle-free
- Closed-toe, white colored shoes that are in good, polished condition and are conservative in style
- Jewelry including necklace, rings and earrings that are conservative in style, size and color
- Limit two earrings per ear lobe in conservative colors and size
- Ear gages should be plugged close with plugs matching skin tone
- White scrub top which meets dress code standards as described above

**Not Allowed at Any Time**

- Sweatshirts or “hoodies” of any kind worn inside work areas
- Denim, team, ski or gym jackets
- Fleece jackets or vests are not allowed in clinical or patient care areas
- Sleeveless tops of any kind including tube-tops, tank tops, spaghetti strap, halter tops and athletic tops. Bare shoulders or back are not permitted at any time
- Oversized baggy sweaters, denim shirts, flannel or pajama style tops
- Shirts with silkscreen logos or printing of any kind, excluding approved shirts with company logo
- Neon bright colored tops or wild, abstract prints
- Denim jeans of any kind or color
- Cargo pants, shorts of any length, cut-offs, overalls, yoga, aerobic or sweat pants
- Open toe shoes of any kind (including sandals), slippers, or bare feet
- Flip-flops of any kind including thong-style flip-flops, beachwear flip-flops, yoga flip-flops
- Platform or chunky rubber soled shoes
- Earrings worn on upper ear area
- Exposed eyebrow, tongue, cheek, lip, nose, chest, back or belly piercing is prohibited
- Visible tattoos on the body such as chest, neck, arm, abdomen, back and ankle tattoos
- Extreme trends such as dreadlocks, Mohawks and long spiked hair is not acceptable
- Non-natural hair colors such as pink, blue, etc. are not acceptable
- Frosted, bright colored eye shadow (i.e., bright green, purple, pink, etc.)
- Bright or excessively dark, thick eye liner worn under the eye or on top of the eyelid
- Extremely long nails and neon or distracting colors are not acceptable
- Artificial nails may not be worn in clinical areas
Computer Requirements

Access to a laptop or PC is necessary for the nursing program. The following are recommended minimum requirements for your computer:

- Encrypted (http://encryption.uucon.org/)
  - Must adhere to current Health Sciences encryption policy
- Operating System
  - Windows 10 recommend
  - Mac OS X 10.9 or later
- Intel® Core i5 Processor (or better) (Intel M Processors are not recommended)
- 4 GB RAM
- 20 GB available hard drive space
- Wireless NIC (Network Interface Card)

BACHELOR OF SCIENCE IN NURSING

Program of Study

Semester 1
NURS 3300 Professional Roles I: Foundations of Professionalism (3)
NURS 3305 Foundations of Clinical Nursing Care (4)
NURS 3310 Promoting Health in Individuals and Families (2)
NURS 3315 Maternal/Infant Health Nursing (3)
NURS 3350 Principles of Clinical Management I (4)

Semester 2
NURS 3400 Professional Roles II: Policy, Advocacy & Collaboration (4)
NURS 3410 Acute Care Nursing Practicum (5)
NURS 3450 Principles of Clinical Management II (4)

Semester 3
NURS 4500 Professional Roles III: Care Transitions Across the Lifespan (4)
NURS 4510 Public Health Nursing for the Global Community (5)
NURS 4550 Principles of Clinical Management III (3)
NURS 4555 Mental & Behavioral Health Nursing (4)

Semester 4
NURS 4600 Professional Roles IV: Leadership and Management (3)
NURS 4605 Evidence-Based Practice (3)
NURS 4650 Clinical Capstone (7)
NURS 5X00 IPE Simulation Experience (.5)
NURS 5X00 IPE Simulation Experience (.5)
BACCALAUREATE CURRICULUM SUMMARY

Semester 1
The first semester consists of 5 core courses with a total of 16 semester credit hours. The focus of the first semester is fundamental nursing skills, assessment, and introductory principles of pathophysiology, pharmacology, and genetics across the lifespan and health-illness continuum. Additionally, foundational concepts of professionalism, healthcare systems and the social context of health and healthcare delivery, ethics, and standards of practice are explored. Students will attend class, simulation and clinical activities for 28 hours per week. An additional 16-20 hours of study time per week is considered the minimal amount necessary for successful completion of the semester. Students should plan on at least 44 hours per week of academic responsibilities.

Semester 2
The second semester is comprised of 3 core course for a total of 13 semester credit hours. Second semester courses build from first semester skill and knowledge acquisition to focus on clinical decision making in acute care across the lifespan. Quality, safety, and advocacy for diverse populations will be studied in relation to policy and interprofessional collaborative practice at the systems level. Students will attend class, simulation and clinical activities for 26 hours per week. An additional 16-20 hours of study time per week is considered the minimal amount necessary for successful completion of the semester. Students should plan on at least 42 hours per week of academic responsibilities.

Semester 3
Four core courses, three of which have clinical components comprise the 3rd semester, for a total of 16 semester credit hours. The third semester continues to build on concepts studied in the first two semesters. Concepts covered include care coordination and transitional care, mental and behavioral health, and health promotion for populations at the local, national and global levels. Students will attend class, simulation and clinical activities for 24 hours per week. An additional 16-20 hours of study time per week is considered the minimal amount necessary for successful completion of the semester. Students should plan on at least 40 hours per week of academic responsibilities.

Semester 4
The fourth and final semester consists of 3 core courses and 2 interprofessional courses for a total of 15 semester credit hours. This semester focuses on concepts associated with leadership, management, evidence-based practice and interprofessional collaboration. In addition to completing an evidence-based project that involves in-depth analysis of data, data trends, and current evidence, students will participate in a clinical practicum spending significant and concentrated time working with a nurse preceptor. Students will attend class and clinical activities for 27 hours per week. Students should plan on a minimum of 20 hours per week of study and project preparation time, to ensure successful completion of the semester in anticipation of graduation and professional licensure. Students should plan on at least 47 hours per week of academic responsibilities.

APPLYING FOR GRADUATION

Graduation applications are required to be submitted by the student by the deadlines established by the University. Applications can be found through your Campus Information Systems portal. For more information, refer to: http://registrar.utah.edu/handbook/undergradgraduation.php. University graduation requirements can be found at http://registrar.utah.edu/graduation/requirements.php.

After the application has been turned in, your personal graduation information section on the Campus Information System will be updated.

Completion of all nursing requirements does not automatically make you a graduate; all University requirements must be completed as well. It is important to follow the instructions provided to you from the Office of the Registrar.

Please note that your date of graduation will be the semester you complete all requirements, regardless of the time you participate in Commencement activities. For example, students who graduate in Summer semester are invited to participate in the Spring Commencement of that year. However, summer graduates will not be “official” until the end of Summer semester. Therefore, when filling out the graduation application make sure to note the appropriate graduation date.

ADMINISTRATIVE DETAILS

Getting U - Connected

If you are a new student to the University of Utah, your student ID is on your official acceptance from the University. Your Campus Information System (CIS) password is your birthday, month, day, and year (00/00/00), which you will be required to change once you enter the system. If you are a former University of Utah student, you are able to continue using your UNID already in existence. You will use the same ID and password to access Umail. If you have problems with your UNID or password, you can contact the Campus Help Desk at 801-581-4000 for assistance.

UCARD

As a student on the University of Utah Campus, you are required to have a U identification card. There are two locations where you may go to obtain the UCard:

Ray Olpin Student Union Building
200 South Central Campus Drive #225
Salt Lake City, Utah 84112-9101
Office hours: M-F, 8:00 am - 6:00 p.m.
http://www.ucard.utah.edu/

UUHSC – School of Medicine, Room AC143C
Office Hours: M-F, 9:00 am-5:00 p.m.
EMAIL (Umail)

A Umail account through the University is required. It is important that you set up your Umail account as soon as you are accepted to the University of Utah. We recommend checking your Umail regularly as this is the official communication of the University of Utah.

The majority of correspondence from your faculty and the Office of Student Services will be conducted through Canvas and Umail. Occasionally it becomes necessary to contact a student over the phone or through personal email addresses. Please keep your contact information current in the Campus Information System (CIS).

STUDENT SERVICES

The University of Utah offers a number of services, which are provided free of charge or at minimal cost to the student. For a complete list of services go to http://www.utah.edu/students/services.php. This site contains helpful and useful information as well as links. Take time to check these out.

University Counseling Center

The University Counseling Center (UCC) provides developmental, preventive, and therapeutic services and programs that promote the intellectual, emotional, cultural, and social development of University of Utah students. The Center helps students resolve existing problems, prevent potential problems, and develop new skills that will enrich their lives. Services address personal, career, and academic learning issues. Formats include individual and group counseling, classes, and mindfulness-based workshops. For more information, please visit the website at http://counselingcenter.utah.edu/services/index.php

Center for Student Wellness

The Center for Student Wellness assists students in skill development that will enhance their personal wellness and ability to succeed--not only in the classroom, but in all areas of life: intellectual, physical, social, spiritual, financial, environmental, and emotional. For more information please see the website at http://wellness.utah.edu/about/index.php

The CSW provides:

- **Health education**
  Health educators encourage U students’ wellness through engaging presentations that includes healthy relationships & sexuality, stress management, and sleep hygiene. They also provide direct services for students such as regular STD/HIV testing clinics and well coaching.

- **Victim advocacy**
  Available for any U community member who identifies as a survivor of sexual or relationship violence. Using a victim-centered approach, clients are empowered through education and supportive dialogue. Services include interim measures, safety planning, referrals, etc.
Veterans Support Center

The Mission of the Veteran Support Center is to improve and enhance the success of student Veterans; to help them receive the benefits they deserve; to serve as a liaison between the Veteran student community and the University; and to increase their academic success. Additionally to provide an opportunity to continue the relationships built through the service in civilian life. For more information please visit the website at http://veteranscenter.utah.edu/.

LGBT Resource Center

The LGBT Resource Center provides a comprehensive range of education, information and advocacy services, and works to create and maintain an open, safe, and supportive environment for LGBT students, staff, faculty, alumni, and the entire campus community. The center is located in Room 409 of the Olpin Union Building. For more information please visit their website at https://lgbt.utah.edu/.

Learners of English as an Additional/Second Language

The English Language Institute (ELI) is committed to helping further the internationalization goals of the University of Utah by delivering a quality preparatory intensive English language program. ELI provides an academically-based curriculum and cultural orientation for international students, visitors, and members of the local community while adding diversity to the educational experience for domestic students. For more information about special programs please visit the website at https://continue.utah.edu/eli/about.

OPPORTUNITIES FOR STUDENTS AT THE COLLEGE OF NURSING

COLLEGE OF NURSING COMMITTEES

Baccalaureate students are invited and encouraged to become members of the important College of Nursing Committees listed below:

- College Council
- Retention, Promotion, and Tenure Oversight Committee (RPT)
- Awards & Recognition Committee
- Baccalaureate Program Committee (BPC)
- Outreach and Inclusion
- Academic Appeals Committee (Ad Hoc)
- Student Advisory Committee (SAC) for CON
- CON Emergency Preparedness Committee

Interested students are asked to contact Savannah Manwill (Savannah.Manwill@nurs.utah.edu) or Carrie Radmall (Carrie.Radmall@nurs.utah.edu) in Student Services.
STUDENT ADVISORY COUNCIL (SAC)

The purpose and functions of the Student Advisory Council (SAC) are as follows:

- To promote and encourage involvement of students in nursing activities, to broaden their perspective of nursing and to develop more interest, responsibility, and commitment to nursing as a profession.
- To provide for official representation of the University of Utah, College of Nursing, students on committees, councils, commissions, and affiliated groups or organizations associated with the Associated Students of the University of Utah (ASUU).
- To provide for official representation of the U of U CON students at national, state and local conventions or gatherings related to nursing, specifically or generally.
- To coordinate student activities with the College of Nursing.
- To represent the U of U CON students’ opinions and to initiate action upon issues arising in the College and within the community.
- To ensure representation and participation of students in academic and administrative policy formation with the U of U CON.
- To provide communication and interaction between the students, administration, and faculty.
- To influence health care, nursing education, and practice through legislative and other activities as appropriate.
- To represent all U of U CON students to consumers, institutions, and other organizations.
- Any nursing student may be a member of the SAC, provided the student is currently accepted to and enrolled in good standing in any U of U nursing program.

SIGMA THETA TAU International Honor Society of Nursing (GAMMA RHO)

Gamma Rho Chapter serves the needs of members from the College of Nursing at the University of Utah Health Sciences Center (UUHSC). Students who meet specific requirements will be invited to join the Gamma Rho chapter prior to graduation. Check out the Gamma Rho Website, http://nursing.utah.edu/sigma-theta-tau/index.php, for detailed information.
