

UNIVERSITY OF UTAH COLLEGE OF NURSING
DNP PROGRAMS CLINICAL EVALUATION Revised 5/15/15

Student Name: _____

Date: _____

Preceptor Name: _____

Clinical Semester _____

These criteria are based on nationally accepted core competencies for advanced nursing practice.

Core Competencies: nursing.utah.edu/preceptor	Student				Preceptor			
	M	PM	UM*	N/A	M	PM	UM*	N/A
Communication/Interaction with Patients and Preceptors								
Demonstrates appropriate communication skills including listening and consideration of cultural differences. Explains examination to patient and family; includes patient and family in planning.								
Uses an accepted order of report/communication to preceptors and interprofessional colleagues								
Data Collection: History and Chart Review								
Obtains a complete patient history								
Conducts a thorough chart review, including laboratory and other diagnostic data								
Conducts Appropriate Examination								
Appropriate physical and/or psychosocial assessment skills								
Identifies data and findings as normal or abnormal								
Assessment/Diagnosis:								
Identifies range of possible diagnoses (differential diagnosis)								
Narrows differential diagnosis appropriately								
Management: Develops a Plan of Care								
Plan is evidence based, appropriate to patient's culture, follows established standards of practice, includes appropriate follow up, and integrates knowledge base								
Includes pharmacologic and non-pharmacologic therapies, patient education, health promotion, laboratory and diagnostic tests and referrals as needed								
Implementation: Assumes Responsibility for Implementation of Plan								
Orders appropriate therapies for individual patient, counsels about health and disease prevention behaviors, provides resources and referrals, and includes patient and family in planning								
Documentation: Utilizes Medical Record Appropriately								
Writes organized, legible notes using SOAP format/site appropriate format								
Completes medical record documentation in appropriate time frame								
Professional Behaviors								
Receptive to feedback from clinical faculty / preceptor; identifies strategies to improve performance								
Maintains confidentiality and ethical behaviors								
Displays prompt and courteous behaviors								

M = Meets expectations for specific semester (refer to student semester expectations document)

PM = Partially meets expectations for specific semester

UM* = Unmet expectations for specific semester (requires narrative explanation)

N/A = Not Applicable

To receive Credit for a clinical course, a student must meet course expectations by the end of the semester (refer to specific course expectations)
