

NURS 4650 -Capstone Clinical
Clinical Performance Evaluation Tool – Non-Acute setting

Student: _____
Preceptor _____
Midterm Date: _____

Faculty/Instructor: _____
Clinical Site: _____
Final Date: _____

**Rating Scale: Based on the final semester expectations of student.
All criteria must be ranked at the “Meets Objective” level by the final evaluation.**

- Meets objectives (M) - Student performance consistently meets the sub-criteria and learning goals. Student needs occasional supportive, directive and physical demonstration cues. Student is able to demonstrate independent thinking in meeting learning goals
- Improvement Needed (I) - Student performance inconsistently meets the sub-criteria and learning goals. Student needs frequent supportive, directive and physical demonstration cues. Student is developing independent thinking in meeting learning goals.
- Does not meet objectives (D) - Student performance does not meet the sub-criteria and learning goals. Student needs constant supportive, directive and physical demonstration cues. Student is unable to demonstrate independent thinking in meeting learning goals.

Preceptor – please provide input and feedback to the student throughout their Capstone experience and evaluate them on their improvement, incorporation of feedback, and progression toward sub-criteria and identified learning goals. Please discuss concerns with student and Clinical Instructor as needed to facilitate progression.

Section I. Standards of Care (Nursing Process)	Midterm	Final
Category A. Assessment		
<p><i>Criteria 1. Collect appropriate information to form a thorough/organized data base for patient care</i></p> <ul style="list-style-type: none"> • Identifies variables that affect the health of a population or community • Identifies relevant community health/public health information applicable to the individual clinical setting • Integrates variables that affect the health of a population into plan of care • Performs thorough and accurate assessments; identifies areas for focused assessments 		
Comments:		
Category B. Problem Identification/Diagnosis		
<p><i>Criteria 1. Analyzes data to identify problems</i></p> <ul style="list-style-type: none"> • Identifies data trends to develop prioritized problem list; including risks to health and safety • Analyze and interpret data trends • Applies assessment data to population-based health promotion and disease-prevention • Incorporates information related to data trends into development of plan of care 		
Comments:		
Category C. Outcome Identification		
<p><i>Criteria 1. Identifies appropriate outcomes/goals</i></p> <ul style="list-style-type: none"> • Works with appropriate preceptor or representatives to establish patient-centered outcomes which promote health and prevent illness or complications within the population served 		

NURS 4650 -Capstone Clinical
Clinical Performance Evaluation Tool – Non-Acute setting

<ul style="list-style-type: none"> • Develops outcomes based on understanding of population culture, evidence, current social policy, cost analysis and risk/benefit 		
Comments:		
Category D. Planning		
<p><i>Criteria 1. Creates and documents a well-developed plan</i></p> <ul style="list-style-type: none"> • Identifies appropriate independent and/or collaborative interventions/actions • Utilizes variety of resources to incorporate evidence-based practice into plan of care 		
Comments:		
Category E. Implementation		
<p><i>Criteria 1. Provides appropriate interventions problem and plan of action</i></p> <ul style="list-style-type: none"> • Implements plan according to identified needs/priorities and documents interventions • Identifies appropriate teaching plans specific to address educational needs • Identifies and utilized available community resources, where appropriate • Incorporates effective teaching-learning strategies to promote patient and family adaptation to health care needs 		
<p><i>Criteria 2. Provides for safety of the patient and others</i></p> <ul style="list-style-type: none"> • Provides safe, orderly and comfortable environment for patient care • Identifies and communicates potential safety risks and harm 		
<p><i>Criteria 3. Demonstrates safe performance of nursing skills</i></p> <ul style="list-style-type: none"> • Accurately and safely calculates dosage and administers medications per facility protocol with appropriate documentation; Understands the process of medication reconciliation • Demonstrates understanding and applies aseptic technique in provision of care • Follows established facility policies, procedures, protocols and routines 		
<p><i>Criteria 4. Time management</i></p> <ul style="list-style-type: none"> • Completes work within allotted time • Anticipates problems in follows through; adjusts/integrates new findings in a timely manner 		
Comments:		
Category F. Evaluation:		
<p><i>Criteria 1. Determines the effects of actions/interventions</i></p> <ul style="list-style-type: none"> • Identifies appropriate evaluation measures based on desired outcomes • Articulates understanding of the process used by community organizations in assessing, planning and evaluating programs • Discusses the role of the nurse in using epidemiologic data to determine effectiveness of public health nursing interventions, programs and services

Clinical Performance Evaluation Tool – Non-Acute setting

Comments:		
Section II. Standards of Professional Performance		
Category A. Quality of Care		
<p>Criteria 1. Contributes to quality nursing practice</p> <ul style="list-style-type: none"> Maintains standards of professional nursing care as well as facility or institutional protocols and standards of care; responsibility and accountability in all RN roles Maintains professional and personal boundaries in all interactions Recognizes patient/population as source of control Advocates for patient/groups, communities/populations Applies principles of cultural competence in working with diverse populations Demonstrates appropriate self-directed initiative, conscientious engagement and follow through 		
Comments:		
Category B. Performance Appraisal		
<p>Criteria 1. <i>Evaluates one's own and others' nursing practice</i></p> <ul style="list-style-type: none"> Assumes accountability/responsibility for own actions; critiques/improves own performance Recognizes own strengths and weaknesses and seeks assistance as necessary Accepts constructive criticism well and utilizes suggestions to improve own performance Is punctual; gives notification of absence, tardiness or inability to meet commitments Dresses appropriately: Follows uniform policy and has nametag and badge as required 		
Comments:		
Category C. Education		
<p>Criteria 1. <i>Seeks knowledge and competence that reflects current nursing practice</i></p> <ul style="list-style-type: none"> Actively engaged in all learning activities experiences Takes responsibility for own learning through engagement/communication of learning goals 		
Comments:		
Category D. Ethics		
<p>Criteria 1. <i>Conducts self in an ethical manner</i></p> <ul style="list-style-type: none"> Truthful in all interactions; maintains confidentiality; takes responsibility for decisions/actions Demonstrates tolerance through non-judgmental communication and behavior 		
Comments:		

NURS 4650 -Capstone Clinical
Clinical Performance Evaluation Tool – Non-Acute setting

Category E. Communication & Collaboration (ANA Standard: Collegiality)		
<i>Criteria 1. Demonstrates effective and professional communication and collaboration</i>		
<ul style="list-style-type: none"> • Utilize therapeutic communication with patients (individuals, groups, communities and populations) • Engages in opportunities for communication with health care team members • Communicates respectfully with others; resolves conflict appropriately • Provides continuity of care through receiving and giving reports about patient status and plan of care • Demonstrates ability to function as an active participant in a collaborative health care team • Utilize developmental and situation appropriate communication; intervenes safely with anxious/agitated individuals as needed 		
<i>Criteria 2. Documents in a clear, accurate, holistic and timely manner</i>		
<ul style="list-style-type: none"> • Documents accurate assessment findings, plan of care, education and care coordination 		
Comments:		
Category F. Evidence Based-Practice (EBP)		
<i>Criteria 1. Incorporates evidence-based guidelines into clinical practice</i>		
<ul style="list-style-type: none"> • Identifies the role of EBP in development and management of programs/problems • Utilizes EBP protocols in planning and implementing care 		
Comments:		
Category G. Resource Utilization		
<i>Criteria 1. Utilizes appropriate resources to plan, provide and sustain nursing services</i>		
<ul style="list-style-type: none"> • Utilize support personnel and equipment in a safe and effective manner • Delegates tasks appropriately using five rights of delegation • Identifies and communicates information that may influence staffing or resource utilization 		
Comments:		
Section III. Student's Personal Learning Goals – at beginning of semester/revised as needed		
1.		
2.		
3.		
4.		
5.
