This is a sample program of study and is subject to change.		
Students are to take each course in the semester listed on this program of study.		

Students going full-time may take methods electives or specialization electives earlier in sequence.

The BS to PhD requires an additional 9 credits of MS or DNP level cognates. The dissertation committee approves the specific courses that meet the cognate requirement.

Writing course or N6000 first year possibilities

7885 is the seminar on cancer aging and end of life
