Academic Mentorship:

Dr. Rebekah Perkins will serve as an Undergraduate Research Opportunity Program (UROP) mentor to third semester prelicensure nursing student, Michaela Lawson, who was selected as a Summer 2023 UROP Scholar. Under Dr. Perkins' mentorship, Michaela will complete a supplementary project to Drs. Jacqueline Eaton, Katarina Friberg-Felsted, Rebekah Perkins, and Kara Dassel's College of Nursing Excellence in Education-funded project titled Promoting Age Inclusivity to
qualitative data to understand the lived experience and perceived barriers that non-traditional-aged nursing students (those 24 years and older) face during their nursing program and at the University.

**Student Spotlight:**

Students enrolled in NURS 3315 Maternal/Infant Health Nursing began their first clinical experiences at University of Utah Hospital and Intermountain Medical Center last week, and made a great first impression. "I just wanted to brag to you about the 2 students who worked with us on WSC today! **Kristen** and **Sydney** were both AMAZING! It was their first clinical day, but they both were eager to learn and quick to find ways to help. They were engaged the entire day and asked thoughtful questions. I wish all students could be as great as these two! Please convince them to come work here after they are done with school!"
